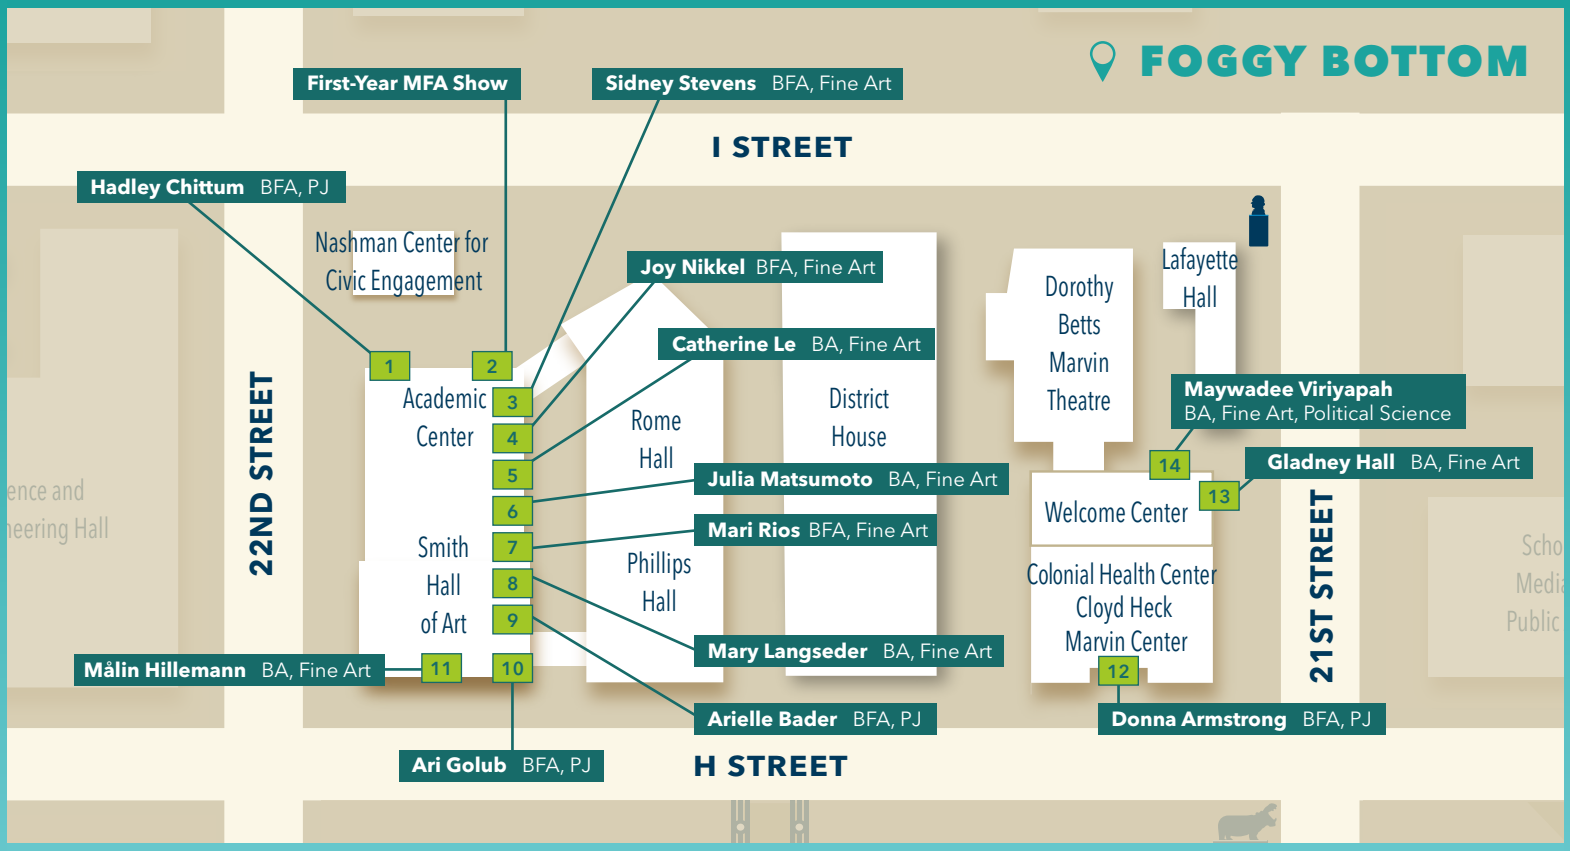
NEXT Installations on Campus

The Corcoran School of Art and Design is thrilled to present their end-of-year show, NEXT: a dynamic, innovative exhibition that gives D.C.'s art community the opportunity to see the latest in contemporary art and scholarship. In 2021, for the first time in its history, NEXT will be a hybrid virtual and physical experience, with outdoor installations launching April 28, 2021 and **on view until May 31, 2021**, as well as a website (**next.corcoran.gwu.edu**) and online performances, launching on May 10, 2021. The public-facing installations on the George Washington University campus are part of Corcoran students' end-of-year undergraduate thesis show, as well as work by first-year Master of Fine Arts students. The work you see on campus was created in 2020-2021 as a culmination of our students' learning experiences in the fields of photojournalism and fine art.

Please enjoy these installations safely, in groups of no more than five people, masked and socially distant. We recommend that you are at least six feet apart (about two arms' length) from other groups. Please follow current GW, CDC and DC guidelines. See the latest university guidance at coronavirus.gwu.edu.



LIST: PJ = Photojournalism

1. **Hadley Chittum** BFA, Photojournalism
