

BCC Recycling Bins

Blue Deskside Bins:

For recyclable paper (see the Paper Recycling Guidelines). These are primarily in offices and classrooms.

Gray Bins:

These are found in indoor public areas – the taller bins are for bottles and cans, the shorter bins are for paper.

Red Bins:

Large black and red bins are for bottles and cans only. These are found in indoor and outdoor public areas.

Blue Toters:

Use for recyclable paper only. Smaller recycling bins are emptied into these each week, and they are picked up biweekly by the Center for Ecological Technology (CET).

Corrugated Cardboard:

- Please do not put corrugated cardboard in recycling bins (flatboard – such as that used for cereal boxes, is okay).
- Staff and faculty should flatten corrugated cardboard boxes and place in designated areas in the hallways.

For questions about recycling other items such as **cell phones** and **ink cartridges**, contact jamiec@cetonline.org
