Think Ahead and Do Contingency Planning

As the COVID-19 crisis evolves, it is critical to plan for various scenarios and come up with cash preservation strategies, cost cutting plans and new operating plans to account for different possible outcomes.

Act Swiftly

Think of proactive solutions your company can implement now to prevent more drastic measures in the future.

Silver Lining — It’s a Great Time to Hire Interns

Many colleges have canceled classes or switched to online learning programs. There are some talented students from our excellent New York State educational institutions who may have some extra time available to support your company and gain some valuable experience.
