Spotted wing Drosophila: 2012 NY Monitoring Results as of August 10, 2012
Spotted wing Drosophila:
2012 NY Monitoring Results as of August 17, 2012

SWD Monitoring Results
- Red: Larvae found in fruit
- SWDmonitor (light blue): First detection
- Light blue: Multiple detections
- No traps present
- No captures

Legend:
- Red: Larvae found in fruit
- SWDmonitor (light blue): First detection
- Light blue: Multiple detections
- No traps present
- No captures
Spotted wing Drosophila: 2012 NY Monitoring Results as of August 31, 2012

SWD Monitoring Results
- Larvae found in fruit
- SWDmonitor
  - No traps present
  - No captures
  - First detection
  - Multiple detections

Legend:
- Red: Larvae found in fruit
- SWDmonitor
  - No traps present
  - No captures
  - First detection
  - Multiple detections
Spotted wing Drosophila: 2012 NY Monitoring Results as of September 7, 2012

SWD Monitoring Results
- Larvae found in fruit

- SWDmonitor
  - No traps present
  - No captures
  - First detection
  - Multiple detections

Scale: 0 12.5 25 50 Miles
Spotted wing Drosophila:
2012 NY Monitoring Results as of September 14, 2012

SWD Monitoring Results:
- Red: Larvae found in fruit
- SWDmonitor:
  - No traps present
  - No captures
  - First detection
  - Multiple detections
