

Creating event from templates.

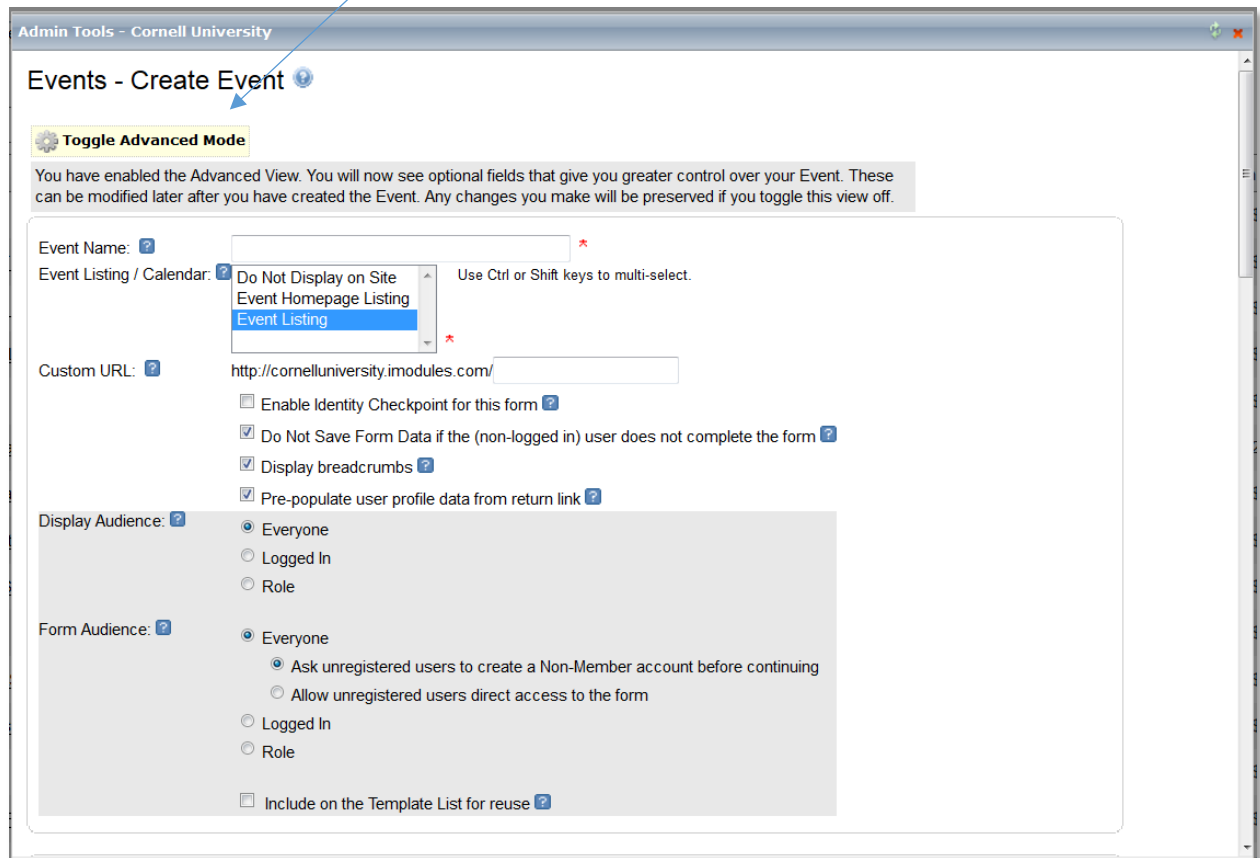

Select Events, then "Create New Events" button

The screenshot shows the iModules interface for Cornell University. The user is viewing the profile of William Babuka (1013690). The 'Events' tab is selected in the navigation menu. Below the navigation, there are buttons for 'Create New Event', 'Refresh', and a 'Keyword Filter' search box. A table of events is displayed below, with columns for 'Event Name', 'Start Date', and 'End Date'. The 'Create New Event' button is highlighted with a blue arrow.

Event Name	Start Date	End Date
> test clone	4/8/2026 12:00 AM	4/8/2026 12:00 AM
> Template: Single Day 2.0 - DO NOT EDIT OR DELETE	10/1/2018 12:00 AM	10/1/2018 12:00 AM
> Template: Multi Day/Multi Price Point 2.0 - DO NOT EDIT OR DELETE	7/7/2018 12:00 AM	7/7/2018 12:00 AM
> Template: RSVP - DO NOT EDIT OR DELETE	2/17/2018 12:00 AM	2/17/2018 12:00 AM
> Cornell at the Opera: Roméo et Juliette	3/18/2017 10:30 AM	3/18/2017 10:30 AM
> Cornell in Rome 30th Anniversary Celebration	3/17/2017 12:00 AM	3/20/2017 12:00 AM

Select "Toggle Advanced Mode"

The screenshot shows the 'Events - Create Event' form in iModules. The 'Toggle Advanced Mode' button is highlighted with a blue arrow. Below the button, there is a message: 'You have enabled the Advanced View. You will now see optional fields that give you greater control over your Event. These can be modified later after you have created the Event. Any changes you make will be preserved if you toggle this view off.' The form includes fields for 'Event Name', 'Event Listing / Calendar' (with a dropdown menu), 'Custom URL', and several checkboxes for advanced options. The 'Display Audience' and 'Form Audience' sections are also visible.

Toggle Advanced Mode

You have enabled the Advanced View. You will now see optional fields that give you greater control over your Event. These can be modified later after you have created the Event. Any changes you make will be preserved if you toggle this view off.

Event Name:

Event Listing / Calendar: Do Not Display on Site, Event Homepage Listing, Event Listing

Custom URL: http://cornelluniversity.imodules.com/

Enable Identity Checkpoint for this form

Do Not Save Form Data if the (non-logged in) user does not complete the form

Display breadcrumbs

Pre-populate user profile data from return link

Display Audience: Everyone, Logged In, Role

Form Audience: Everyone, Ask unregistered users to create a Non-Member account before continuing, Allow unregistered users direct access to the form, Logged In, Role

Include on the Template List for reuse

Name the 'Event' with the understanding that the event name will be displayed (unless steps are made to modify the HTML) on the Registration page.

Event Registration Model ?

The registration model can be changed on an event until submissions have been received.

- Form-Driven**
Users who complete the event form will be registered as attending. Fee and activity are not required. Activities can be added with or without fees.
- Fee-Driven**
Users are required to pay a registration fee on the main event to register. Events with donations supported in this model. Activities with or without fees can be

Event Start and End Dates along with times can be added. Display dates do not need to be entered.

Scroll down on the form and select "Use an existing event template"

The screenshot shows the 'Admin Tools - Cornell University' interface. The main content area is divided into several sections:

- Guests:** Allow registrants to bring guests
- Registration Settings:**
 - Enable Registration Limit across all registrants
 - Enable Registration Limit for each primary registrant
- Features:**
 - Attendees List [?](#)
 - Display as pop-up window
 - Display as in-page content
 - Create Related Activities
 - Message to Coordinator
 - Attendee List Opt Out

If defaults are accepted, the confirmation email and the Confirm/Finish page settings will be filled in automatically - these can be edited at any time.

- Accept all registration form defaults
- Proceed through wizard to edit advanced settings

https://adminlb.imodules.com/admin/index.aspx?sid=1717&gid=2&cid=616&from=dbms&page_id=5&mode=content&for=calendar&cal_add=1&type_alias=%5bevent%5d&inframe=1&ininit=1

Select the template to be used, the templates are in alphabetical order and can be advanced by use of the arrows.

The event build screen will be displayed when the event form is created.

The screenshot displays the Encompass system interface for viewing and managing an event form. At the top, the user is logged in as William Babuka (1013690). The navigation menu includes Profile, Notes, Forms, Events, Campaigns, Membership, Tasks, Communications, and Tracking. The 'Events' section is active, showing 'Manage Events', 'Event History', and 'Reports'. The event 'Test from Ron' is selected, with sub-options for 'RSVP', 'Registrant', and 'Guests'. The interface is in 'Build Form Mode'. A warning message states: 'This form was created from a template and has not yet been verified. If you are sure of the form settings, click here to verify.' Below this, the event title 'Test from Ron' is displayed with links for 'Content Properties', 'View Content', and 'Manage Form'. The breadcrumb trail is 'RSVP » Registrant » Guests » Finish'. The main section is titled 'Main Registrant Step' and contains the instruction: 'If you are collecting guest information, fields added here will be available for use on the Guest Information Step. Email address must be on the first step of the form.' The 'Registrant' form is shown with a red header 'Personal Information' and the following fields: Title (Please Choose), First Name (William), Middle Name (Ronald), Last Name (Babuka), Suffix (Please Choose), Email (wrb1@cornell.edu), and Confirm (wrb1@cornell.edu). A checkbox at the bottom is labeled 'Please do not show my name on the'.

Verify, then select "Content Properties" to set additional parameters of the event.

iModules will redirect back to the Edit Event page. Again select “Toggle Advanced Mode”

The screenshot shows the 'Event - Edit Event' page in the iModules Admin Tools interface. The page title is 'Event - Edit Event'. A yellow box highlights the 'Toggle Advanced Mode' button. Below this, a message states: 'You have enabled the Advanced View. You will now see optional fields that give you greater control over your Event. These can be modified later after you have created the Event. Any changes you make will be preserved if you toggle this view off.'

The form fields are as follows:

- Event Name:** Text input field containing 'Test from Ron'.
- Event Listing / Calendar:** A dropdown menu with three options: 'Do Not Display on Site', 'Event Homepage Listing', and 'Event Listing' (which is selected).
- Custom URL:** Text input field containing 'http://cornelluniversity.imodules.com/TestRon'.
- Identity Checkpoint:** A checkbox labeled 'Enable Identity Checkpoint for this form' which is unchecked.
- Form Settings:** Three checked checkboxes: 'Do Not Save Form Data if the (non-logged in) user does not complete the form', 'Display breadcrumbs', and 'Pre-populate user profile data from return link'.
- Display Audience:** Radio button options: 'Everyone' (selected), 'Logged In', and 'Role'.
- Form Audience:** Radio button options: 'Everyone' (selected), 'Ask unregistered users to create a Non-Member account before continuing', 'Allow unregistered users direct access to the form' (selected), 'Logged In', and 'Role'. A checked checkbox 'Log out non-members after form completion' is also present.

Settings such as Identity Checkpoint and Pre-populate can be set (for more information, find training material at this site and iModules site)

This process of accessing the Event Edit page can be repeated as often as needed. Once an event has begun registration however, some elements to the event (such as event type) are locked.

Settings such as the Registration Settings (its recommend to just set the end date during testing, then set the start date after testing is complete)

activities will be removed from the event. The RSVP field will be added to the Registrant Category at the bottom of the step.

Registration Settings

Start Date: End Date:

An event location of city, state should be entered.

The screenshot shows a web form titled "Admin Tools - Cornell University". At the top, there are navigation tabs for "Campaigns", "Membership", "Tasks", "Communications", and "Tracking". Below these are two sets of input fields for "Phone" and "Fax", and "E-mail". The first set has the phone number "(607) 254-8988" and the email "RSVP@cornell.edu". The second set is empty. Below these is a "Location" section. It contains a "Location Name" field with the text "Ithaca, New York". A blue arrow points from the text above to this field. Below the location name is a "Directions" section, which is a rich text editor with a toolbar containing icons for bold, italic, underline, list, link, and other text formatting options. The toolbar also shows "Arial, Verdana" as the font, "Size" as the font size, and "Custom Links" as the link type. Below the toolbar is a large empty text area. At the bottom of the form is a "Next >>" button. The URL in the browser's address bar is "/admin/index.aspx?sid=1717&gid=2&ininit=1&inframe=1&cid=616&page_id=-5&mode=content&type_alias=[event]&pgfid=11736&eformcid=10340&sl=1".

Additionally, if the event is a virtual event, substitute in the location of "Virtual".

The location field will be used in the www.alumni.cornell.edu event listing.
