

A commerce field was placed on an event. Two ticket prices are needed, one for most attendees, and another for people to be comp'd. Instead of providing multiple promo codes to cover registrant/guest combinations, a multi-ticketing solution was used.

Tickets for the Registrant

Event Ticket

Please do not show my name on the attendance list:

Please Choose... \*

Editing the commerce field:

Admin Tools - Cornell University

### Commerce - Prices / Fees

Add Price / Fee Sort Priority Keyword Filter

Label	Price	Registrant Limit	Overall Limit	Start Date	End Date	Audience	Priority
⚙️ Registrant Fee	\$10.00		2			Everyone	1
⚙️ Comp Ticket	\$0.00					Custom	2

Page size: 50

Back Finish

Select the cog for Comp Ticket:

The price is set for \$0, however by selecting roles
