

Below you will see the lots and descriptions of feeder calves that will be auctioned next Friday April 14. There are 16 lots, 50 steers and 30 heifers, 80 in total. They were graded using USDA Feeder Calf Standards and sorted into similar weight groups. The spread is around 50lb. in each lot.

These producers are committed to providing calves that are either double vaccinated or have used modified live vaccinations, weaned, on feed drinking from waterers. We think that you will be pleased with the results. The calves all qualify for "all natural"; most being "never-ever", and not treated with growth promoting hormones. There is also a nice offering of calves that qualify for grass finished, having never received grain.

They will be sold by Tom Hosking of Hosking Sales, New Berlin NY on April 14, 2:00 pm. You can bid in person at the Schoharie Otsego Cooperative Extension Cooperstown Office, 123 Lake Street, Cooperstown, NY 13326, or on the phone, by calling: 1-888-394-8197, Pass code: 441517. To bid by phone, buyers must call CCE - Cooperstown Office 607-547-2536, ext. 231 the week of the sale (April 10-13) to register for the sale. The successful bidder will pick up the cattle on April 29 at Hosking Sales, 6096 State Highway 8, New Berlin, NY. More details are available at <http://beefcattle.ansci.cornell.edu/>, under "Events & Programs".

Bill Gibson, for the Central New York Beef Producers.
