Southern Tier Stocker Initiative Short Course – Speaker Bios

Nancy Glazier, Small Farms Specialist
North West New York Dairy, Livestock & Field Crops Team, Cornell Cooperative Extension

I joined the team as team assistant in 1999. In 2008, I was promoted to my current position as Small Farms/Livestock Specialist. My office is in Penn Yan, Yates County and I work with producers across the ten counties.

Some of my responsibilities include conducting educational programs in dairy and livestock grazing, livestock production, and marketing in the region. I also conduct trainings for Beef Quality Assurance certification as a certified trainer. An integral part of my job is working with beginning farmers.
