Beef Quality Assurance (BQA) is your consumer-friendly story to tell. Becoming BQA certified allows you to share your story and ensure consumers that you are responsibly raising safe, wholesome and healthy beef. The checkoff’s BQA training teaches you the best management practices for handling cattle, tending to their health and taking care of the environment.

Now, take the time to become BQA certified during October BQA Month. More information about the BQA program and certification process is available at www.nybeef.org in the Cattlemen’s Corner.
