Beef Nutrition Meeting

Friday November 15th
7:00-9:00 pm
Extension Learning Farm
2043B State Highway 68, Canton, NY
Mike Baker, Cornell Univ.

Join us to see if your forages will meet the requirements of our cows or calves over the winter. We will be looking at ration analyzers on the computer so **bring your laptop** to the meeting and we will help you set it up.

*If you don’t have a forage analysis done, the hay corer and instructions on how to sample are available at the Extension office.* Samples are picked up twice a week at Wight and Patterson and take about 48 hours for results.

You can use book values to learn the system if you can’t get your sample back in time.

Registration appreciated but not required. Betsy Hodge at 315-379-9192, Ext 227 (leave a message or email at bmf9@cornell.edu. $5 cost.

*Meeting also available in Watertown Nov 12, Westport Nov 13, Malone Nov 14
Contact your local Extension Office for more info.*

*Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities*
