

## **Cost Sharing**

The university may provide resources in a “cost-sharing” arrangement to support a sponsored project. Contribution of such resources are reimbursed costs to the university and must be carefully considered and approved by the party with budgeting authority. Once committed, it is important to document the fulfillment of the university’s responsibilities for cost sharing, and to maintain compliance with government and other regulations. The Cost Sharing Policy can be accessed online at [https://www.dfa.cornell.edu/sites/default/files/policy/vol1\\_1.pdf](https://www.dfa.cornell.edu/sites/default/files/policy/vol1_1.pdf).
