

Learning Strategies Center

Through supplemental courses, tutorials, study skills courses and consultations, academic writing assistance, a reading lab, a statistics lab, and workshops, the Learning Strategies Center (LSC) provides students with advice and resources necessary to maximize their academic potential and expand their critical thinking. The LSC (<http://lsc.cornell.edu/>) provides support for all students; our Cyber Tower room, “Making a Successful Transition” (<http://www.cornell.edu/video/playlist/making-a-successful-transition-to-cornell>) is especially helpful to first-year students.
