Calendar Option 2

To add four weeks to the summer for course prep, the Fall semester starts in mid-September and ends in mid-January.

Breaks removed to discourage travel and to make room for transitions between on-line and on-campus segments.

Students “leave” just before Thanksgiving and do not return until early March. 20 weeks on-campus. 13 weeks on-line

No winter session thereby eliminating an opportunity to catch-up or get ahead.

Adding breaks in the fall would mean an earlier start.

Adding breaks in the spring would mean later finish and delaying commencement and the start of summer session.
