History:

- **1996** - The Faculty Committee on Program Review (FCPR) was created by the Faculty Senate in 1996 to implement periodic external reviews of departments as mandated by President Rawlings. Peter Stein chaired the first committee, which established procedures, guidelines and the review cycle for the entire university.

- **2001** - Stephen Hamilton was appointed as Chair. Under Steve’s guidance, the FCPR worked to standardize and streamline the guidelines and procedures, including a revised format for self-studies.

- **2003** - Joanne Fortune became Chair in January 2003. With Joanne’s leadership, the committee brought to completion a backlog of over thirty reviews that had accumulated because of late reports by deans and department heads.

- **2005** - Jim Jenkins succeeded Joanne in January 2005, with the challenge of completing the first cycle of reviews and beginning the second.

- **2007** - In September 2007, Brian Chabot was appointed Chair. Under Brian’s direction, the schedule for the first cycle of reviews was completed in 2008 and the second-cycle reviews began in 2009. During spring 2009, the FCPR acted in concert with the Provost to temporarily suspend external review site visits both as a budget savings measure and because the immediate financial stress departments were experiencing might perturb the review’s intended long-term view.

- **2009** - Cliff Pollock became Chair in September 2009. While reviewers were suspended, all college Deans were interviewed on the strengths and weaknesses of the external review process, and revised guidelines for the self-study were established. External reviews began again in 2012 using these new guidelines.

- **2013** - In December 2013, Geoffrey Coates became Chair. During spring 2015, the Provost approved increasing the regular number of external review team members for every site visit from 3 to 4 reviewers.

- **2016** - In January 2016, Linda Nowak became chair. During fall 2016, the Provost approved increasing (doubling) the honorarium for external review team members for every site visit from $1,250 to $2,500 for the chair of the team and from $1,000 to $2,000 for the other 3 members of the team.

- **2017** – In July 2017, Anthony Bretscher became chair.

- **2018** – In January 2018, Avery August became ex-officio.

- **2019** – During fall 2018, the Provost approved increasing the number of external review team members by 1 (from 3 to 4 members) for every site visit. On July 1, 2019, Sean Nicholson became chair.

- **2020** – In March 2020, travel restrictions were imposed in response to the COVID-19 pandemic and spring 2020 program reviews were postponed. As travel restrictions were extended, several fall 2020 programs reviews were postponed.

- **2021** – During fall 2020, two reviews were conducted virtually on Zoom. During spring 2021, all reviews were postponed due to COVID-19. University administration would like to continue to conduct program reviews (either entirely or partially) virtually as much as possible.
• **2022**: During Fall 2021 and Spring 2022, reviews were conducted partially virtually. The Committee revised the self-study format.

• Kristin Walker continues to provide staff support to the committee and to maintain the "historical" record of the reviews.

**Academic Year 2021-2022 Accomplishments:**

• **Four** FCPR letters to the Provost were completed and sent to the Provost.

• **Six** external review team site visits occurred.

• **Six** departments are preparing for their site visit and their reviews should be completed during the coming year (Appendix I). In consultation with the Deans and Department chairs, the scheduled date for a few reviews were adjusted to best fit the resource availability of the department. Appendix II summarizes the progress of the first and second review cycles over the past 21 years.

**Challenges:**

• On June 31, 2022, eight members will cycle off the committee, including Sean Nicholson, the FCPR Chair, so we will aim to replace them with faculty from Arts and Sciences, Agriculture and Life Sciences, Human Ecology, Engineering, Veterinary Medicine, Law and Public Policy.

• Due to the 2-year hiatus of program review for budgetary reasons, departmental reorganizations and mergers, hiring of new department chairs, and travel restrictions imposed in response to the COVID-19 pandemic, some departments are at risk of failing to be reviewed within the desired 10-year window.

**Summary:** The committee completed a year in which six reviews were active. Of these, four reviews were completed and the remaining two are awaiting responses from departments/deans. Six departments are in the process of scheduling their site visits.

Due to the 2-year hiatus of program review for budgetary reasons, departmental reorganizations and mergers, hiring of new department chairs, and travel restrictions in response to the COVID-19 pandemic, some reviews are falling short of being reviewed within the required 10-year window.
Active Reviews:

- Final report sent to Provost, External Review Team visit Fall 2021
  - Asian Studies (02-03, 08-09)
  - Linguistics (98-99, 07-08)
  - Animal Science (98-99, 08-09)
  - Communication (99-00, 10-11)

- External review team visit occurred Spring 2022, reporting not completed
  - Performing and Media Arts (02-03)
  - Chemical and Biomolecular Engineering (02-03, 11-12)

Planned Reviews 2022-2023:

- Architecture (06-07)
- Chemistry and Chemical Biology (01-02, 12-13)
- City and Regional Planning (01-02, 11-12)
- Development Sociology (07-08)
- Science and Technology Studies (00-01, 12-13)
- Systems Engineering (12-13)
Faculty Committee on Program Review
Appendix II
Reviews Completed, Ordered by Year of External Review Team Visit

1997-1998
Electrical Engineering
Microbiology (Division of Biological Sciences)
Plant Engineering
Rural Sociology

1998-1999
Agricultural, Resource, and Managerial Economics
Animal Science
Bailey Hortorium (Division of Biological Sciences)
Biochemical, Molecular, and Cell Biology (Division of Biological Sciences)
Computer Science
Ecology and Systematics (Division of Biological Sciences)
Fruit and Vegetable Science (Ithaca), Horticultural Science (Geneva)
Genetics and Development (Division of Biological Sciences)
Linguistics
Neurobiology and Behavior
Nutritional Sciences
Plant Biology (Division of Biological Sciences)
Plant Pathology
Physiology (Division of Biological Sciences)

1999-2000
Communication
Natural Resources
Ornithology
Theoretical and Applied Mechanics

2000-2001
Agricultural and Biological Engineering
