

If you plan to take MAE 2250, Mechanical Synthesis, in Spring 2016: You will be eligible to concurrently enroll in a new liberal studies course, ENGRC 2250, partnered with MAE 2250.

Offered for the first time in Spring-- ENGRC 2250, MWF 12:20-1:10

ENGRC 2250: focuses on the communication skills needed as a student and pre-professional in Mechanical and Aerospace Engineering. You will gain experience, confidence, and agility in your ability to successfully navigate the specialized communication needs for success at school and work.

ENGRC 2250:

- Limited Enrollment:
Available only to 20 students who are also enrolled in MAE 2250.
- 3-credits.
- Fulfills the Engineering Communications category (CE), satisfying one of two upper-level (2000+) required liberal studies.
- Will be posted on the roster prior to Sophomore pre-enrollment (11/9/16).
- Prepares you for your advanced academic work towards the M.E. degree.
