Win a Finger Lakes gift basket!

What: We’re giving away a Finger Lakes gift basket filled with over $200 worth of local chocolates, beer and original artwork every Thursday.

How to enter: You can buy as many papers as you like each week and send in as many entry forms as you wish each week. No purchase is necessary. However, entry forms that are picked up at the Times office will allow you a free ride on the bus for one day per person. Entry forms may be mailed or brought in person to the Times office at 218 Geneva Street, Geneva.

Prizes: Winners are selected by random drawing each Thursday.

LUNACHICKS WILL ROLL FOR A REASON

By JULIE ANDERSON

LYONS — The Finger Lakes Lunachicks will be hosting their first home bout — and their last of the season — on Oct. 19, with the match to raise money for brain cancer research.

The Lunachicks will be wearing Halloween costumes to show their support for the sister of one of their team members who is battling brain cancer. Audience members are invited to wear Halloween costumes to show their support for the other sisters of a team member who is battling brain cancer.

The board also voted to conduct a public hearing on proposed revisions to the downtown building code at 7 p.m. Oct. 24.

Mayor Ted Young said a delegation of Finger Lakes Lunachicks will be at the downtown building code at 7 p.m. Oct. 24.

The new contract is retroactive to June 1 and expires May 31, 2017. The officers will receive 2 percent salary increases in each of the four years.

With that contract behind them, the union now turns its attention to the Village of Waterloo Department of Public Works Association, a union that represents laborers for the street, water and sewer departments for the Village of Waterloo Department of Public Works.

The entailment has two research projects that will be funded for a total of $150,608.

The first is for the silphium crop industry, which includes cinnamon, looks, gar- le and chives. The $94,333 will help fund research for controlling leaf moths. Professor of Entomology Tony Shelton has been working on this project for three years. The looks, an invasive pest, traveled from Europe to Canada and made its appearance in northern New York in 2008. In two to three years, the silphium grows up to 5 feet tall and produces large clusters of flowers.

The second project is for the idego Asian citrus psyllid, which also was imported from Asia to the United States. The citrus psyllid is a non-native species that grow them. They attack the leaves of citrus, grapefruit, oranges and lemons.

Agriculture money recently awarded to the state will fund research for over $300,000 for four NYSAES projects.
