Cornell University Student Child Care Grant Program
Funding Period: January 2019 – June 2019
Information, Eligibility Guidelines, and Application

Cornell undergraduate, graduate and professional students are eligible to apply.

Background Information and Funding
In 2004, Cornell University became one of the first universities in the nation to offer a child care grant program for student-parents. Since then, the objective of the Cornell Student Child Care Grant Program remains the same: to provide financial assistance to as many Cornell students with child care expenses as possible. The program assists Cornell students by subsidizing some of the eligible costs associated with childcare, including infant and toddler child care, preschool/pre-k day care, before/after school care and support for children up to high school graduation. In 2015, Cornell made a significant investment in our student-parent community by contributing $250,000 to be awarded annually as Student Child Care Grants; another $100,000 was added in 2017. Cornell’s funding for the Student Child Care Grant Program is $350,000 for 2018. The eligibility requirements were changed in Fall 2018 so more families would be eligible for assistance.

As a result of success in summers 2017 and 2018, we anticipate a continued separate Summer Care Program to support summer care expenses (to be announced in spring ’19). Because we prioritize offering the academic year Student Child Care Grant Program, the availability of the Summer Care Program will be determined by funds left over after the 2018-19 program has ended.

How Does the Program Work?
The Student Child Care Grant Program is designed to assist Cornell University students with covering a portion of the costs of eligible childcare, including infant and toddler child care, pre-school/pre-k day care, before/after school care and a stipend for high school age children. Students can receive a taxable grant each year based on the amount of grant funds available and their ability to meet eligibility requirements. As noted below, eligibility looks at the student’s academic status; the work, academics or other engagement of the student’s partner (if any); the household income; the age of child; and the type of child care. After assessment of the various eligibility requirements, some families will be eligible for partial grants and others will be eligible for full grants.

In the spirit of meeting the objective of serving as many Cornell student-parents who meet eligibility as possible, and given the finite pool of funds available, awards will be made to all applicants who meet the eligibility criteria, though the amount awarded may be less than the maximum indicated for the following categories depending on the number of eligible students. Maximum grant award amounts for January 2019 - June 2019:

- Infant/Toddler/Preschool (infant through preschool): maximum of $2,000 per child
- Before/after school care (kindergarten up to age 13): maximum of $500 per child
- Age 13 through High School Graduation: maximum of $250 per child

There are also special categories which would warrant additional grant awards. If you are a single parent or have a child with a disability, you may qualify for the following amounts:

- Infant/Toddler/Preschool (infant through preschool): maximum of $500
- Before/after school care (kindergarten up to age 13): maximum of $150
- Age 13 through High School Graduation: maximum of $75

Maximum award amount per household is $6,000.
Who is eligible?
The goal of this grant is to make as many child care grant subsidies to as many student-parents as possible so that students can better attend to their academic responsibilities. To be considered for the Student Child Care Grant Program January 2019 - June 2019, you must meet the following eligibility criteria:

1. Have not received a Cornell University Child Care Grant Subsidy Program in Fall 2018 for 2018-2019. If you have received funding, you may be eligible for Summer 2019 program or again next Fall 2019.

2. Be enrolled as a full-time student in a Cornell University degree program at the undergraduate, graduate, or professional level during the semester that you apply for the Student Child Care Grant Program.

3. Be the custodial parent or legal guardian of a child (newborn through high school graduation) during the academic year.

4. The child(ren) must reside full-time in your local residence while you are completing your academic program.

5. Utilize child care services to pursue your educational program. For child(ren) up to age 13, student-parent must incur child care expenses for what is defined as legal care. Legal care (which can be informal or regulated) is defined as care where you are paying the provider and the provider is claiming that income on their US taxes. See footnote for more descriptions.¹

6. For child(ren) from age 13 through high school graduation during the academic year, the grant is designed to offset financial hardship associated with child expenses (i.e. extracurricular and academic enrichment activities).

¹ There are several forms of legal care, including both informal and regulated care. These include:

i. Informal Care - Unregulated but legal (no permit required):
   i. Provider is required to claim income from child care services provided on taxes, and
   ii. A person who provides child care in his/her home for a maximum of two children at a time, in addition to
      his/her own children, or
   iii. A person or program providing care for any number of children for less than three hours a day, or
   iv. A person who provides care in the home of the child (in-home care).

ii. Regulated Care – Child care that is regulated by the NYS Office of Children and Family Services, which issues permits (registrations and licenses). Some common types included:
   i. Family Day Care - must be registered. One provider, age 18 or older, receives a permit to care for a maximum
      of five to eight children on a regular basis in a personal residence. Maximum capacity depends on the ages of
      children in care.
   ii. Group Family Day Care - receives a license. The maximum capacity is 10 to 14 children and depends on the
      ages of children in care. Care is provided on a regular basis in a personal residence by approved caregivers
      who are age 18 or older. One caregiver is required for every two children under age two years. A minimum of
      two providers must be present whenever seven or more children are in care.
   iii. Day Care Center - must be licensed. Care is provided to six or more children on a regular basis for more than 3
      hours a day, usually at a location other than a residence. There are strict building, staffing and program
      requirements. Children are grouped by age (6 wks. - 18 mo., 18 mo. - 3 years, 3 - 5 years, 6+ years), which may
      not mix with other groups.
   iv. Small Day Care Center - must be registered. Care is provided to three - six children on a regular basis at a
      location other than a residence.
   v. School Age Child Care - must be registered. Care is provided on a regular basis to seven or more children who
      are under 13 years of age and who attend kindergarten or a higher grade. Care is usually provided at a site
      other than a personal residence.
Eligibility/Grant Structure:

6. You must demonstrate financial need for the grant. Students with family AGI over $120,000 are not eligible. Percentage of the amount awarded is adjusted on your family AGI; noted below.

Eligibility Limitations: There are limitations associated with the Student Child Care Grant Program:

9. If your spouse or partner is employed by Cornell as a benefits-eligible employee, you are not eligible for the student grant. In this circumstance, please apply for the faculty/staff grant program. Families can not apply to both programs.

10. If your spouse or partner is a student at Cornell, your household can only apply for one grant.

11. If you will be adding a child to your family (through birth or adoption) this year, you are eligible to apply once you have the child and childcare is in place. If this takes place during the academic year, your grant will be considered based on funds available and prorated accordingly. Please alert Marie Roller (mr36@cornell.edu) now if this describes your situation.
12. If you do not meet posted eligibility requirements, but believe your individual situation warrants special consideration, you are encouraged to submit an application and provide information about circumstances. We are particularly interested in emergency situations for student-parents, situations where documented income does not reflect current situation, and concern about how the eligibility criteria fits to an individual student-parent situation. The Student Child Care Grant Review Committee carefully reviews all requests.

How Do I Apply for the Grant Program?
Applications are available March 8, 2019. The grant period covers January 2019 - June 2019. The deadline for application is **March 28, 2019 at 3:00pm.** Award notification will be made via email by **April 26, 2019.** Once application is approved, students will receive a credit on their Bursar account. It may take up to 6 weeks to complete the process. If you have questions, please contact Marie Roller at mr36@cornell.edu

Everyone must complete and submit the application (including the statement of understanding, and Child in Care Information (one per child under age 13)) – attached to this form, pages 5-8.

Everyone must submit these additional documents to apply:

- **Family Adjusted Gross Income.** Acceptable documentation includes:
  - Completed 2017 tax return, specify if single or joint filing. Will need family AGI documentation.
  - Statement of earnings by employer for 2017
  - If neither are possibilities, student can complete and submit page 1 of the IRS 1040 form, found: [https://www.irs.gov/pub/irs-pdf/f1040.pdf](https://www.irs.gov/pub/irs-pdf/f1040.pdf)

- **Spouse/Partner Activity.** Acceptable documentation includes one of the following:
  - Written statement for co-applicant’s employer or educational institution verifying employment or enrollment. Documentation must include hours/week associated with the position.
  - If spouse/partner is unable to be employed due to visa status, but engaged in Cornell/Ithaca, please submit documentation from community agency/volunteering (including hours/week) and copy of visa documents indicating F-2 status.
  - If spouse/partner is disabled, please submit documentation from spouse/partner’s doctor.

Submit these documents only if this fits your situation:

- If applying for age 13 – high school graduation category, submit statement from school confirming current attendance.
- If child has a disability, please submit documentation from the child’s doctor.

And, then....

- Submit via U.S. Mail (postmark date) or hand deliver on **March 28, 2019 before 3pm.** Late, incomplete, faxed, emailed, or campus mailed applications will **not** be accepted.
