DEA 1110 Making a Difference by Design: Tackling Hospitality & Health Care Challenges

Summer Course
July 13-July 31, 2020

Introductory level course about leadership, creative problem solving and using the tools of design to make a positive impact. For non-designers and designers alike.

Earn 3 college credits in 3 weeks!

LEARN directly from a multidisciplinary faculty team, how design affects you personally and how you can affect design process to innovate in various fields.

Understand how to conduct basic cost estimates, basic design exercises and possible techniques for service improvement through hypothetical projects.

Explore successful design thinking in hospitality, health and other fields through lectures, hands-on exercises, case studies, speakers and tours.
