About Integrative Wellness Psychiatry

Many young adults struggle with mental health or substance use issues but are reluctant to seek treatment because they are afraid of being stigmatized. We provide a non-judgmental space and personalized treatment plans so people can experience the deep healing they need to become the best versions of themselves.

Our team at Integrative Wellness Psychiatry (IWP) works together to set up a culture that is comfortable, welcoming, and consistent for our clients.

IWP is a mental health and wellness start-up originally founded in NYC with therapists and psychiatric practitioners who are passionate about helping our clients on their journey to complete healing.

The Role: Growth/Corporate Strategy Experience Summer Intern

In light of the pandemic and social unrest facing the US, there has been an increase in demand for mental health services. IWP is seeking to grow to help meet the increased need. We are seeking to hire a Growth Strategy intern for a 10-12 week internship during the Summer of 2021.

You’ll be a good fit if:

- You are passionate about mental health.
- You have great people skills
- You are flexible, hard-working, and enjoy problem solving
- You thrive while multitasking
- Organization is a strong suite of yours
- You are excited about innovation and think outside the box
- You have a teamwork mindset
- You can comfortably handle the challenges

Job Description:

- Assess the current state of the organization. Identify gaps and opportunities to improve
- Create a scaling plan that outlines how IWP will grow and expand its footprint over the next 5 years. Plan will include:
  - Organization's 5 year (2026) vision and goals
  - Recommendations for new markets to enter
  - Recommendations for new disease states
  - Outline of high-level organization chart
  - Financial projections including revenue and operational changes based on growth
- Partner with the leadership team to refine IWP’s mission and vision
- To contribute to the 5 year plan, interns will research and understand the behaviors of potential clients

Required experience and education:

- BA or BS Degree. Candidates must be currently enrolled in an MBA or MPH program. May 2020 graduates are welcome to apply
- Candidate must have completed one year of MBA or MPH coursework by Summer 2021
- Candidates must have excellent strategic, analytical, and critical thinking
- Candidates must have strong interpersonal, written, and verbal with an understanding of, and experience with, Microsoft Word, Excel and PowerPoint
- Candidates must have strong collaboration, project management and organizational skills; ability to act with minimal supervision, prioritize activities and manage multiple tasks within deadlines
- Candidates must be able to begin internship May 2021

This is a contract role and IWP is more willing to partner with you institution or university to offer credit for this internship
We look forward to finding someone who is passionate about mental health and helping clients find the right fit to begin or continue their journey to complete mental health.
