CONSULTING ABROAD PROGRAM 2020

PROJECT DESCRIPTIONS
GLOBAL & EXPERIENTIAL EDUCATION
Anna Helm is Associate Teaching Professor of International Business at The George Washington University as well as the Faculty Director of GW’s Center for International Business Education & Research (GW-CIBER), one of 15 CIBERs in the U.S. funded by the U.S. Department of Education.

Dr. Helm teaches courses on international marketing management, green business, the cultural environment of international business, and foreign market analysis. She has developed and taught several online courses and regularly offers courses with real client projects. Since 2010, she has taught international consulting courses in Sweden and other countries with projects in both the cleantech and healthcare industries, with a particular focus on high-tech startups. Dr. Helm’s devotion to teaching, student-centered learning, and interdisciplinary collaboration has resulted in numerous teaching awards, including the 2019 inaugural GW School of Business Dean’s Award for Teaching Excellence.

Originally from Sweden, Dr. Helm holds a MSc in International Business and Economics with German from Lund University, Sweden, as well as an MA in Germanic Studies from the University of Maryland. She received her PhD from Georgetown University in 2002. Prior to joining GW’s School of Business, she was the Director of the Business, Culture and Languages Program at the University of Maryland, College Park.

Dr. Helm is pursuing research on cross-cultural differences in consumer perceptions of green products, sustainability innovation, and curricular best practices in International Business. She is the Principal Investigator for a Liberal Arts and the Professions grant from the Teagle Foundation, titled “An Internationalized Liberal Arts Curriculum for Undergraduate Students,” with the objective of deeply integrating liberal arts into the undergraduate business curriculum at the GW School of Business.

Prior to taking on the role as Faculty Director of the GW-CIBER, Dr. Helm was Co-coordinator of GW-CIBER’s Business Languages Program. In this role she has led workshops across the U.S., presented at national conferences, created teaching materials and business cases, as well as published articles in peer reviewed journals. As the GW-CIBER Faculty Director she continues to be deeply involved in the Business Languages programming at GW.
CareerFoundry offers mentored online courses in UX Design, UI Design, and Web Development—teaching their students the most in-demand tech skills of today and tomorrow. Their platform helps people looking to make a career change or those who want to enhance their current skillset.

**Sector:** Education  
**Theme:** U.S. Market Expansion - Focus on Sustainability & Access

Identify how CareerFoundry can be more inclusive by recruiting students who would otherwise not be able to afford their courses. Develop insights and recommendations into potential opportunities with employment offices, company sponsored employee professional development offerings, student loans and Income Share Agreements.

Research how CareerFoundry can be better positioned to complement the Future of Work by identifying tech professions of the future (5 years) and trends that relate to climate change.

---

Mitte was founded with the mission of improving lives with safe and healthy water. The company's flagship product is a home appliance for water purification and enhancement, which will be launched together with three different mineralization cartridges covering different mineral needs. Mitte aims to revolutionize how water is consumed around the globe, and therefore has a range of products in the pipeline.

**Sector:** CleanTech  
**Theme:** CSR

**Project Description**

Develop the vision and build the roadmap of a new initiative MitteX - a social impact arm of Mitte that will develop solutions to benefit people in developing countries. Research the global water crisis and existing technologies and business models that can support impoverished regions. Analyze what Mitte has to offer in terms of expertise, technology and other resources to increase access to drinkable water.
PricewaterhouseCoopers is a multinational professional services network with headquarters in London. PwC ranks as the second largest professional services firm in the world and is one of the Big Four auditors. PwC is Germany’s leading auditing and consulting firm. The project will sit in their valuation and strategy department which employs about 35 people that deal primarily with valuation, modelling and analytics services, especially within the real estate industry.

**Sector:** Consulting  
**Theme:** Intersection of Health Services & Real Estate

**Project Description**  
Develop a rough concept for senior care strategy in Germany as the basis for a successful implementation of innovative care concepts as the market changes including business segment development as well as current and future customer needs and competitive offers.

Identify what is working well and what can be improved. Recommendations on how to elevate the initiative, develop a true intern experience and have sustainment of efforts across the region to support growth and employer branding.

**Pundi X** is a leading developer of blockchain-powered devices which include the XPOS, the world’s first point-of-sale solution that enables merchants and consumers to conduct in-store transactions instantly on the blockchain, and the world’s first blockchain phone called BOB powered by Function X which allows you to own and control your data without any centralized service provider.

**Sector:** Fintech (Blockchain)  
**Themes:** Marketing, Banking, Finance & Innovation

**Project Description**  
Identify the best framework to onboard and scale a payment solution supporting cryptocurrency. Identify a target group and market to focus on as the "lowest hanging fruit". Develop a feasible region/country penetration plan, including but not limited to the target group, promotion activities, XPOS / XWallet deployment plan, merchant expansion plan, banking / compliance application (if needed), new service to be developed, etc.
**VC Growth Partners (VCGP)** is a private investment company that operates as a Family Office. The VCGP focus is spread across a portfolio of companies in healthy Fast Moving Consumer Goods (FMCG) snacks & beverages, retail & enterprise technologies, and B2B Corporate Service Providers. This project supports VCGP's portfolio company, Bayani Brew Inc, a for-profit Manila-based healthy FMCG company with the social mission to alleviate the poverty of farmers in partnership with the Filipino NGO, Gawad Kalinga.

**Sector:** Venture Capital / Impact Investing  
**Themes:** Marketing, Agribusiness, Sales, Distribution, Finance & Logistics

**Project Description**
Conduct a Market Entry Project for the Bayani Brew products to enter the Singapore and Hong Kong markets. Bayani Brew manufactures and markets a range of healthy teas and drink products. Manufacturing is conducted in The Philippines using locally sourced fresh ingredients from subsistence level Filipino farmers.
CONSULTING ABROAD PROGRAM S. AFRICA

Dave Halliday’s research interests include Business Strategy, Corporate Strategy and Business Ethics and Public Policy. He received a B.A. from Stanford University, an MBA from Yale and a Ph.D. in Business Strategy from the University of North Carolina at Chapel Hill.

Cenfri is a non-profit think tank that does research on financial regulation, financial markets and financial needs with the objective of improving the financial lives of the poor. Cenfri is structured as a think tank and commercial consultancy firm and deliver their work through donor programs (80% of revenue) and free-standing projects (20%).

Sectors: NGO & Think-Tank
Themes: Finance & Human Capital Management

Project Description
Develop business growth plan to help manage human capital (and learn from past experiences), research best practices of relevant equivalent think-tanks in both SA & DC, provide recommendations as to the best way to respond to new (consulting) business opportunities.
**Darling Sweet** is a manufacturer of high quality handcrafted South African toffees and other candy. They do not add preservatives or synthetic flavoring to their products. Their full range packaging is recyclable and their clear toffee wrappers are biodegradable and fully compostable. One of their main objectives is job creation and up-skilling members of their community.

**Sector:** Marketing, Economic Analysis  
**Themes:** US Market Entry, CSR, Social Business & Family Business

**Project Description**  
Develop US market export strategy including insights into how to mechanize some production lines and possible new product lines.

---

**Discovery**

*Discovery* is a South African-born, global company with health, life and short term insurance operations in South Africa and the UK. Their Vitality Shared-Value Insurance model has received international recognition, including being ranked 17th in Fortune’s index of 51 companies “changing the world.”

**Sector:** Insurance  
**Themes:** Finance (Individual & Business), Sales & Management

**Project Description**  
Discovery is the leader with regard to addressing the complexities of the new environment, which means their products are by far the most intricate and comprehensive. Critical to their growth is the ability of the business consultants to convert non supporters to supporters and to assist supporters to grow and take their business to another level. Discovery needs assistance investigating the dynamics of this process.
Lulalend is a FinTech company with a belief in the power of small business, making a difference, building a better solution and striving for excellence. They work hard to empower businesses across South Africa with the funds they need to grow. Their loans range from R20k - R1.5million in size and businesses need to have been active for at least 1 year and have a turn-over of at least R500k (approximately $7,000) per year.

**Sector:** FinTech

**Themes:** Entrepreneurship, Technology, Market Analysis & Macroeconomics

**Project Description**

As a tech business, Lulalend has built their business on direct marketing, which has been very successful. A key part of this will be to map out the South African economy to figure out which industry verticals have the highest concentration of small and medium sized businesses (value chains with high fragmentation) and how they can target these value chains or verticals through affiliate or partnership deals.
