

Innovation Grants

We welcome innovative studies relevant to understanding and preventing suicide. We are open to biological, psychological, and sociological approaches, and we encourage multidisciplinary research. These are investigator initiated grants.

Distinguished Investigator Grants: Up to \$125,000 over 2 Years

- Investigators at the level of associate professor or higher with an established record of research and publication on suicide

Standard Research Grants: Up to \$100,000 over 2 Years

- Investigators at any level

Linked Standard Research Grants: Up to \$300,000 over 2 Years

- Investigators at any level performing research involving two or more sites with each site making a unique contribution

Young Investigator Grants: Up to \$90,000 over 2 Years

- Investigators at the level of assistant professor or lower
- Up to \$80,000 for the investigator's research, with an additional \$10,000 (\$5,000 per year) for an established suicide research mentor (AFSP can assist in matching mentors with mentees)

Postdoctoral Research Fellowships: Up to \$112,000 over 2 Years

- Investigators who have received a doctoral degree within the preceding six years, and have not had more than three years of fellowship support
- Fellows receive a stipend of \$48,000 per year, with an institutional allowance of \$8,000 per year

Pilot Research Grants: Up to \$30,000 over 1-2 Years

- Investigators at any level
- Provides seed money for innovative new projects with potential impact; typically more feasibility than hypothesis-driven studies

Accepting applications August 1, 2018 to November 15, 2018.
