- Plan, schedule, prioritize, implement, and facilitate all video sessions to include technical support and customer service.
- Provide training and assists in communicating with end users information about video conferencing environments.
- Create and maintain digital resources for these environments.
- Serve as liaison for faculty, administrative and support staff to gather input for the maintenance and problem reporting of video conferencing/collaborative technology environments.
- Respond to faculty needs for additional training and technology support including recommendations about supported applications.
- Provide input to tech support, and facilities and planning staff for maintenance and upgrade of instructional technology environments.
- Assist instructors with the use of the equipment in a timely manner
- Interact with diverse individuals from a variety of disciplines
- Responsible for contributing to the continued support and future development of emerging collaborative technology platforms including voice, chat, social, mobile, synchronous, asynchronous and non-synchronous forms of collaboration.
- Responsible for evaluating new technologies involving video and chat or messaging, including making recommendations and implementation.
- Assist in the management of student employees
- Assist in the recruitment, selection, orientation and evaluation of students
- Provide hands on troubleshooting, software, and technical training to students in classroom and lab environments.
- Assign tasks to student employees and supervise work
- Other duties as assigned including attendance at all ITS, iTAC and unit meetings.

Mandatory Qualifications:
- Associate Degree in a related field, or two years of related coursework or employment experience in instructional technology environments that support instruction.
- Experience with Video Conferencing systems such as: Polycom, Tandberg and/or Cisco Telepresence
- Experience with Collaborative technologies such as: Microsoft Lync, Adobe Connect, Skype, and/or Goto Meeting, Vidyo and BlueJeans
- Demonstrated experience working with computers and audio and visual systems intergration
- Demonstrated knowledge and hands-on experience in the configuration and administration and support of desktop operating systems in a cross platform Mac/PC environments
- Extensive knowledge and experience in the use of Windows and Mac applications
- Ability to work with faculty and students on AV needs
- Must possess excellent written and verbal communications skills
- Must be self-motivated and possess the ability to work with little direct supervision
- Must be a current employee of Kansas State University
- Must be able to work a flexible schedule

Preferred Qualifications:
- B.S. Degree or higher in an Information technology related or other relevant field
- Hands-on training and/or experience in supporting instructional technology environments.
- Extensive knowledge and use of more complex Window-based applications, such as databases in a multi-user environment.
- Experience working in a higher education environment
- Broad experience with collaborative technologies
- Experience with supporting complex audio visual system
- Experience with providing IT support

Salary Range: $40,000 - $45,000

Applicants must submit:
1. Cover letter reflecting how skills meet the requirements of the position
2. Resume
3. Names, phone numbers, and email addresses of at least three professional references
