Guide

Question 8: Where and how are you storing the data during the project?

- List the platforms and devices that will be used to store the data, e.g. electronic lab notebook, Sharepoint, Wordpress.
- Identify the location where the data would be stored e.g. school server. Provide the URLs of online locations.
- Provide names of people performing data storage roles.

Additional Information:
- See ‘Storing Your Data’ in UK Data Archive for more information.
- See ‘Storage and Security’ in MANTRA for more guidance.
