

LINGUISTICS

Understanding Call Numbers

Have you ever wondered how library books and journals are assigned their places on the shelves?

NTU Libraries, like many major academic libraries in the world, uses the Library of Congress Classification for call numbers. This system uses a combination of letters and numbers to arrange materials by subjects. Therefore, you can often find several helpful books on the same shelf, or nearby.

Below is a selective listing of topics which may be of interest to you.

Research Topics	Call Numbers
-----------------	--------------

Bilingualism and Multilingualism	P115
Child Language	P118.3
Cognitive Linguistics	P165
Computational Linguistics	P98
Discourse Analysis	P202
Forensic Linguistics	HV8073

Language and Gender	P120
Language Disorders	RC423
Language Planning and Policy	P40.5
Morphology	P241
Phonetics and Phonology	P217 - P238
Pragmatics	P99
Psycholinguistics	BF499.5
Second Language Acquisition	P118.2
Semantics	P224
Sign Language Acquisition	HV2474
Sociolinguistics	P40
Syntax	P291 - P295

Discovering Our Rich Online Resources

NTU Libraries has a wide range of resources which includes ebooks and ejournals. They are accessible via our homepage at www.ntu.edu.sg/library.

Here is a selective listing of specialized databases that can get you started on your research. Access them via **Library Homepage**.

ProQuest | Linguistics and Language Behavior Abstracts (LLBA)

Linguistics and Language Behaviour Abstracts

Linguistics and Language Behavior Abstracts (LLBA) contains abstracts of articles on various aspects of the study of language, including phonetics, phonology, morphonology, syntax and semantics.

Oxford Reference

Oxford Reference

Oxford Reference contains subject dictionaries and reference works published by the Oxford University Press. Under the Linguistics section, it offers useful resources such as International Encyclopedia of Linguistics and The Concise Oxford Dictionary of Linguistics.

Project Muse

Project Muse is a multidisciplinary database created for the Humanities, Arts and Social Sciences. It offers rich resources for students taking Linguistics.

JSTOR

This database provides backfiles of core scholarly journals in many disciplines. Some journals date back to the 1800s.

Topics covered includes:

- * Political Psychology
- * Child Development
- * Consumer Psychology
- * Social Psychology

Digital Dissertations & Theses

The Dissertation Abstracts database is the single, authoritative source of doctoral dissertations and master's theses from over 1,000 accredited North American graduate schools and European universities.

FACTIVA

Factiva

Drawn from more than 35,000 sources, Factiva provides current news and analysis. It also offers same-day and archival coverage of The New York Times, The Straits Times, Wall Street Journal, Financial Times, Fortune, Time, Newsweek and local newspapers from every corner of the globe.
