OPEN PEER REVIEW

WHAT IS OPEN PEER REVIEW?
Peer review of scholarly work done openly, for all to see, for all to participate

HOW DOES IT WORK?
- Manuscript is uploaded on OPR platform
- OPR is announced via social media and personal invitations
- Reviewers address individual paragraphs, chapters, or the entire book
- Author can respond publicly
- After OPR the author has the opportunity to re-work text

DIFFERENT PATHS TO OA BOOKS

**AUTHOR PAYMENT - GOLD**
author, funder or institution pays fee to publisher

**FREEMIUM**
publisher releases basic version for free, author pays for ‘full’ version

**CROSS SUBSIDY PUBLISHING**
subsidy received from institution or other activity to fund publication

**EMBARGO - GREEN**
book released after pre-determined period usually without any fees

**CROWD FUNDED**
‘crowd’ shares costs to fund publication

**LIBRARY FUNDED**
libraries share costs across consortia to fund publication
WHAT ARE THE COSTS?

- Open access publication costs depend on the technical and specific requirements of each project for editorial, production, marketing and sales departments.
- Our open access fees are on average between -7,000 EUR and -10,000 EUR per volume and depends on services, size, etc.
- In order to help authors, De Gruyter has introduced a generous discount scheme, and also waivers for researchers in developing countries. All applications will be considered on an individual basis.
- Moreover, De Gruyter signs Institutional OA Agreements to remove the burden of paying fees away from the author.
