- *Journalism Teaching and Practice in the Digital Age*
- *Geometric Singularities, Dynamics and Loewner's Conjecture*
- *Language Maintenance and Revival in Indigenous Communities in Amazonia*

Emerging from the Education Partnership for the 21st Century, the Fulbright Core U.S. Scholar Program to Brazil has expanded considerably over the last few years to become one of the largest across the Fulbright program. The program is seeking faculty, research scholars and professionals to engage in teaching and/or research activities to foster education, collaborate on new ideas and share resources in the country. All career stages and all disciplines are welcome, and scholars new to the region as well as those with substantial regional experience are encouraged to apply. For most awards, Portuguese or Spanish proficiency is not required.

With more flexible research and teaching options, as well as numerous opportunities for early career and non-tenured scholars, now is the time to consider applying for a Fulbright grant to Brazil.

2016-2017 Award Opportunities to Brazil

All Disciplines (#6455) *[approx. 30 grants available]*

- Flexible award open to scholars and professionals for teaching and/or research in any discipline
