DR. JEFFREY DAVIS

Director, Human Health and
Performance NASA JSC

*Jeffrey R. Davis, MD, MS currently serves as
Director, Human Health and Performance
(HH&P), and as the Chief Medical Officer for the
NASA Johnson Space Center. The HH&P provides
the research and technology development re-
quired for exploration as well as all human
health and performance support to space flight
operations of the International Space Station.*

HERMAN BROWN 227

Friday, March 15, 2013
12 p.m. — 1 p.m.

*InnoCentive, Inc., and NASA Johnson Space
Center's (JSC) Space Life Sciences Directorate
(SLSD), recently announced a new NASA
Open Innovation Pavilion providing the
public with the opportunity to solve difficult
problems facing the U.S. space program in
human health and performance.*
