

Care When You Need It Most

The *Back-Up Care Advantage Program*® is available to you if your family care arrangements are impacted by Hurricane Harvey.

REGISTER & RESERVE CARE NOW

Contact us at 877-242-2737 — care consultants are available 24/7.

Once registered, we can help you find the care you need or you can receive a reimbursement to help you cover the cost to hire a caregiver within your own personal network, such as a relative, babysitter, or friend. Any use of the program will count towards your standard number of back-up care visits.

IMPORTANT

To be reimbursed for care, you need to contact the *Back-Up Care Advantage Program*® and receive pre-approval prior to securing care. Reimbursement forms will be provided to you at that time. The program is currently activated in Texas.
