

## Parliament 10/18/17

- SA Updates
- Lifetime Enrichment Discussion
  - Want to make life enrichment include a wider range of topics like financial literacy, public speaking, etc.
  - Martelian opinions on this:
    - Classes already exist so the focus should be on improving classes that already exist
    - Offer more non- traditional skills (i.e. how to be more sustainable)
    - Broadly agree that life enrichment is important. Current discussion in SA is how do we implement this
    - LPAP is important for physical/mental health
  - One implementation plan→ make task force to find how the student body wants to implement the initiative
  - Another plan→ include lifetime enrichment as part as the LPAP.
  - Could leave the integration of the lifetime enrichment and LPAP and think about how to incorporate lifetime enrichment another way
  - General consensus→ like lifetime enrichment, but agree that we don't know how to implement and LPAPs should also be revised. Vote that a task force for implementation of lifetime enrichment should be formed and another task force should be created to revise the LPAP
- Martel Updates
  - Water bottle fillers on floors soon to come?
  - Interest Poster
    - Ready and will be hanged in the commons!
    - Electronic version with more people?
  - TV
    - Hung up in the commons but needs to be plugged in (not sure when that will happen)
    - Should be set up by winter break
  - Sundeck
