Blackbaud CRM™ Solution Overview

Blackbaud CRM brings industry-leading fundraising, online applications, actionable prospect research and analytics, and multi-channel direct marketing together in one platform to enable an integrated view of the constituent experience across your organization.

By leveraging our deep knowledge of fundraising, Blackbaud CRM offers the only organization-wide solution that helps nonprofits efficiently manage traditional constituent relationship management (CRM) responsibilities as well as the needs and accountabilities inherent in the nonprofit space.

Blackbaud CRM solves the challenges of large-to enterprise-level nonprofit organizations.

Nonprofits face a variety of daily challenges, such as building stronger constituent relationships, raising money with increased efficiency, acquiring new donors, and increasing stewardship. In addition to these challenges, organizations with multiple sites also need a flexible, scalable, and secure CRM solution that addresses their unique needs.

Blackbaud CRM empowers organizations to build deeper and more personalized relationships with supporters. It helps them achieve organizational efficiency by providing roll-up reporting while eliminating the duplication of information technology infrastructure, and it enables the success of individual chapters and field offices by allowing them to focus on local mission delivery while standardizing processes across the entire organization.

We were looking for a system to help us manage our constituent relationships… and found the Blackbaud CRM solution set stood head and shoulders above the competition in the way in which it was meeting today’s needs and our vision for tomorrow’s needs.

— Tim Snyder, Associate Vice President for Alumni and Donor Services, Wake Forest University
It offers complete constituent relationship management for nonprofits.

Blackbaud CRM™ helps organizations improve constituent engagement, build stronger relationships, and improve fundraising effectiveness by providing a complete supporter view and an organization-wide toolset for managing your constituent base.

- **Technology to Support Your Mission**
  Consolidate overhead to free up organizational areas to focus on their missions

- **Effectively Manage All of Your Constituents — Not Just Donors**
  Bring information from different departments or offices, even from different systems, together to achieve a unified constituent view

- **Support Multiple Chapters, Field Offices, and Programs**
  Provide chapter-relevant tools and best practices to enable the individual success of chapters and field offices within your overall organization

- **Measure Performance at Varying Levels**
  Use seamless roll-up and drill-down reporting to evaluate and measure performance at varying levels within your organization

More than donor management – it allows you to focus on constituent relationship management.

Blackbaud CRM brings together disparate information, such as annual and capital giving, gift planning, major giving, and volunteer systems, across various chapters and programs within an organization.

- **Achieve a Single System of Record**
  Consolidate disparate systems into a single solution that can be securely and efficiently shared throughout the organization

- **Maximize Fundraising Efforts**
  Turn data into timely and actionable information to grow fundraising, synchronize campaigns, and strengthen relationships with constituents

- **Share Constituent Information**
  Increase visibility of constituent records across the organization

- **Improve Constituent Tracking**
  Enhance tracking and monitoring of constituents across the lifecycle

- **Merge Multiple Data Sources into a Single System**
  Improve data integrity challenges and institutional understanding by bringing together multiple systems

- **Increase Mission Visibility**
  Establish links between functional areas and programs/mission to increase visibility throughout the organization

Blackbaud CRM enables a positive return on investment. A composite of Blackbaud CRM customers experienced a 107% ROI over five years.¹

Our greatest challenge was to achieve a single view of our constituents, regardless of which hospital they gave to or what avenue they gave through. The broad view available in Blackbaud CRM made it easy to understand donor history and know how they want to be communicated with because it is all right there.

— Jenna Taylor, Director of Corporate Development Programs, Shriners Hospitals for Children

We live in a multi-channel and multi-screen world. The nonprofit ecosystem is more complex than ever and requires robust business intelligence tools to properly engage constituents. The days of analyzing RFM (recency, frequency, and monetary analysis) exclusively and engaging in siloed campaigns are as relevant as stagecoaches and steam engines.²
