About the United Community Action Network

UCAN is one of the largest social service providers in Douglas and Josephine County, Oregon. We touch on the lives of many of those who live in our region, work arm-in-arm with all of our communities, and collaborate with most of the areas' public and private human service agencies. UCAN is one of the largest employers in the region. UCAN is also one of the region's most comprehensive providers of human services. The agency budget has neared 20 million dollars and it employs nearly 200 people.

Nicole will, through education and outreach, create interest and demand among DC residents to create energy efficient structures and technologies. Nicole will also execute the plan to educate our community through speaking engagements at civic-community groups, schools, churches and business and non-profit leaders. Along with investigating resources needed to meet the demand for home/business energy audits and developing a workable plan tackle these challenges. She will also collaborate with the Douglas County STEAM hub to engage high school students throughout the county in an Energy Science Fair which will culminate in an exhibition in May at the local community college.

Meet Nicole Mandall

- B.A. in History – Emory University
- People may be surprised when they learn that I am an avid yoga adventurer. Going out into nature, finding the unknown, and pushing myself past my limits is one of the greatest cathartic releases.
- My most significant accomplishment is the Club GLOW I started during my Peace Corps service.
