

Warm Springs, Eagle Tech Systems (CORE)

Community Profile

Population 4, 231

Location Warm Springs

Position Description

Sponsor Warm Springs, Eagle-Tech Systems and the CORE Collaborative

Supervisor Clyde Stryker, Procurement Manager

Assignment This is one of five RARE positions sponsored by the CORE Collaborative. CORE, which stands for Connecting Oregon for Rural Entrepreneurship, is a collaboration funded by the W.K. Kellogg Foundation and spearheaded by Oregon's Rural Development Initiatives. While each of the five RARE assignments will vary based on the needs of the specific communities, all CORE positions will share a focus on creating and sustaining entrepreneurship development systems in economically distressed target areas. In Warm Springs, the RARE participant will work closely with the Warm Springs tribal business venture, Eagle Tech systems, to: launch skill building trainings for entrepreneurs; develop a youth entrepreneurship program and a school based technology club; institutionalize a newsletter focused on entrepreneurs, local businesses, and local events; and help establish a local technology center and related website. While local leaders and entrepreneurs will spearhead CORE's regional efforts, a CORE statewide advisory board will bring together diverse lessons learned to ultimately impact statewide policy change.

Required Skills The RARE participant should have strong communication and organizational skills. The participant should understand and be interested in business development concepts and entrepreneurship. S/he should be creative, flexible, able to take initiative, and should have strong skills in planning and marketing. The participant will need basic computer skills and the ability to think and write clearly. The participant will also need to have strong customer service skills.

RARE Participant

Daniel Berumen

Daniel Berumen is a native of the San Francisco Bay area, and grew up in a family that is both bilingual and bicultural. He attended the University of New Mexico and the University of the Pacific and graduated with an undergraduate degree in history. After graduation, he worked with Palo Alto Community Child Care as a resource specialist and provided trainings and workshops for the professional development of teachers and child care providers. He also provided Spanish translation services. At the same time, he worked as an intern for the business development manager at the City of Menlo Park and gained experience in business and economic development. Following his year with RARE, Daniel hopes to attend graduate school and receive a master's degree in community and regional planning with a focus of economic and urban development.
