

Human Subject Pool – Used Study Names

As of Spring 2012, studies are named after **composers' last names**. You can see a complete list of acceptable composers on Wikipedia, at: https://en.wikipedia.org/wiki/List_of_composers_by_name

The following list is the list of USED study names. This extends back indefinitely (so you will see more than the current study naming scheme here). To be sure your chosen composer name has not yet been used, use the "find" function to search this page. If your preferred study name is not listed here, you may request a new study with that name:
