Teachings: A Thousand Celilos: Tribal Place Names and History Along the Lewis and Clark Trail  

Subject/s: Reading/Writing/Social Studies  

Grade Level: 4/5

Unit Objectives/Big Ideas: Example: Students will use a variety of texts to compare and contrast, draw conclusions and create generalizations about chosen topics. Students will research their local community histories and present their findings in a presentation that explains how and why an area has changed, compares what life is like now to what life was like in the past, and draws conclusions about the importance of keeping traditions alive. Students will identify at least two tribal place names that have been supplanted by non-tribal people. Students will explain the role language plays in preserving culture and cultural traditions.

Common Core State Standards Addressed:
- RL.4.1 Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text
- RL.4.6 Describe how a narrator’s or speakers’ point of view influences how events are described
- RI.4.2 Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text
- RI.4.3 Explain the relationships or interactions between two or more individuals, events, ideas, or concepts in a historical, scientific, or technical text based on specific information in the text.
- RI.4.6 Analyze multiple accounts of the same event or topic, noting important similarities and differences in the point of view they represent.
- RI.4.9 Integrate information from two texts on the same topic in order to write or speak about the subject knowledgeably.
- W.4.1 Write opinion pieces on topics or texts, supporting a point of view with reasons and information.
- SL.4.4 Report on a topic or texts, tell a story, or recount an experience in an organized manner, using appropriate facts and relevant, descriptive details to support main ideas or themes; speak clearly at an understandable pace
- SL.4.5 Add audio recordings and visual displays to presentations when appropriate to enhance the development of main ideas or themes.

Tribal Enduring Understandings Addressed:
- The Columbia River tribes have made significant contributions to the region over time and continue to do so today.
- Knowledge of tribal cultural, environmental, political, social, and economic factors affects how we understand the present and future significance of an inundated waterfall.
- Celilo Village has been affected by past, present, and future events occurring locally, regionally, nationally, and globally.
- The decisions that were made about Celilo Falls before and after March 10, 1057 will affect the status of that place for years to come.
### Episode 1 (Week 1): Refining Reading Skills and Understanding the Value of Place Names

**Weekly CCSS Focus/Objective:** Students will practice transferring their fiction reading skills in order to engage with nonfiction texts with a critical eye. CCSS Focus/Objective: RL1—Quote accurately from the text when explaining details and drawing inferences, RL6—Use envisioning to describe how a narrator’s point of view influences how events are described, RI2—Summarize the text by determining one main idea and supporting key details.

**Essential Questions:** How have American Indian peoples traditionally:
-.named, described and interpreted this place?
-.interacted with and contributed to the natural environment of this place?
-.created and organized a built environment in this place?
-.transported themselves and goods through this place?

<table>
<thead>

</thead>
<tbody>
<tr>
<td><strong>Daily Objective</strong></td>
<td>Students will use sensory imagery to draw a picture of a scene in narrative nonfiction and then compare it to the actual scene.</td>
<td>Students will use Post-Its consistently while reading the text.</td>
<td>Students will “try out” a variety of reading strategies to see what works best for them.</td>
<td>Students will revise at least one of their Post-It Notes to get to the next cognitive level of thinking.</td>
<td>Students will explain the significance of names and the power of naming.</td>
</tr>
</tbody>
</table>

**Learning Target (What we tell and show the students. They should be able to identify and demonstrate this learning target.):**

- Readers use some fiction strategies while reading nonfiction in order to develop confidence and understand what they read.
- Readers of informational nonfiction often use Post-It Notes to summarize as they read for information.
- Readers of nonfiction use a variety of strategies in a variety of situations to make meaning of the text.
- Readers of nonfiction push their writing to the next level in order to deepen their thinking about a text.
- Readers notice the place names of areas and investigate the history behind them in order to uncover the many layers of history that they do not see in the present.

**Vocabulary:**

- Envision, narrative, and story specific vocabulary: Mother Earth Creator Canal Barge Drawbridge Cable cars Fancy Dance War Dance Yakama Nez Perce Cedar Boughs
- Summarize, time immemorial, usual and accustomed, in lieu fishing sites, and content specific vocabulary
- Oral reading, second person pronoun, expository
- Detail, nuance, elaborate

**Vocabulary links:**

- **Silaylu** (Wayâm pronunciation); Wanalà (to Sahaptin person from Celilo)
  - Pronounced: [http://depts.washington.edu/sahaptin/s/silaylu.m p3](http://depts.washington.edu/sahaptin/s/silaylu.mp3)
- The Great Falls of the Columbia, The Great Mart, The Columbia River original place name is Nch’I Wana (“Big river”) Pronounced: [http://depts.washington.edu/sahaptin/w/nch%27i_wana.mp3](http://depts.washington.edu/sahaptin/w/nch%27i_wana.mp3)
- Pronounced: [http://depts.washington.edu/sahaptin/s/nch_i_wana.mp3](http://depts.washington.edu/sahaptin/s/nch_i_wana.mp3)

<td>Teaching Method</td>
<td>Mini-lesson, read-aloud, Read aloud, stop and jot Show picture of present Celilo Lake. Be curious, “What happened?” I want to know!</td>
<td>▪ Demonstration of using “you” pronoun for the topic ▪ Demonstration of read-aloud like you’re reading to a young child</td>
<td>▪ Demonstration, Turn and Talk, Journal Write ▪ Students will revise one of their summary Post-it Notes to reflect reading expectations. ▪ Student-Facing Rubric that provides a model for Post-It Note writing and journal response. (HANDOUT)</td>
<td>Discussion of Stegner quote, Mini-lesson, turn and talk, individual practice. Share observation lists and discuss how and why things might have been different 10, 20, 50, 100 years ago.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Differentiation</td>
<td>High Level Learners: Include drawing feelings and thoughts Emerging Learners: Draw the actions you envision</td>
<td>H: introduce thought prompts to push thinking E: Reinforce answering the question, “What is this trying to teach me?”</td>
<td>H: Assumption that they have already found strategies that work; they name them and explain why a particular approach works best for them. E: N/A</td>
<td>Higher: Work on CHAPTER, rather than section, summary and begin drawing conclusions Lower: Summary only.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Assessment</td>
<td>Journal entry: a picture of what they envision Celilo Falls to look like, including representations of sensory detail if they are ready. Exit Slip or Post-It Note that demonstrates accurate summarization of what is read.</td>
<td>Students will write one Post-It note for each strategy they try to determine which works best for them.</td>
<td>Students will submit an original and revised Post-It note. Exit Slip</td>
<td>Weekly Assessment: Journal write: Using this week’s mentor texts, any other texts you have read, and your prior knowledge, explain why it is important to uncover the history of where you live. Explain at least one strategy you use to engage with a nonfiction text. List some key factors that determine an author’s point of view.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Homework</td>
<td>Write a poem or paragraph that illustrates the activities that went on in the story.</td>
<td>Summarize what you read independently tonight using at least three Post-It Notes or one complete journal entry.</td>
<td>Complete the community observation handout. Once you have finished, paste or tape it into your journal on the left side so that you can write notes about those places on the right side of your journal. Students will form their research groups that will guide their reading and research presentation for the remainder of the unit of study.</td>
<td>Share the words with others today Using your independent reading, locate at least one historical account that either explains where a place name came from or what might have been there before what you observed over the past two days. Write it in your journal next to your chart. Trade texts with someone in your research group to identify a differing account of the same event or person.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**Essential Questions:**
- What changes in the traditional cultures and languages have occurred in this place?
- What economic changes have occurred in this place?
- How has the health and wellbeing of tribal peoples been affected?

3/24/15 DRAFT
**EPISODE 3 (WEEK 3): Gathering Data and Determining Author Purpose and Structure: How cultural values impact places**

CCSS Focus/Objective: Choose an area of research; identify the text structure of at least two different texts. Summarize the texts by determining main idea and supporting details; determine author’s point of view and how they impact readers.

- RL.4.6 Describe how a narrator’s or speakers’ point of view influences how events are described
- RI.4.2 Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text
- RI.4.3 Explain the relationships or interactions between Lewis and Clark and the Northwest Tribes they encountered based on specific information in the text.
- RI.4.6 Analyze multiple accounts of the description and purposes of Celilo Falls, noting important similarities and differences in the point of view they represent.

**Essential Questions:**
- How did members of the Lewis and Clark expedition describe and interpret this place?
- How did American Indian peoples describe encounters with members of the Lewis and Clark expedition?

Shana Brown
Celilo Curriculum Map (overview of lessons)
3/24/15 DRAFT
| Teaching Method | Model the text structures authors use:  
| Conner: Comparison/Contrast  
| L&C Journals: Chronological  
| Craig: Sequence, Narrative  
| Beavert: Narrative  
| “Today I want to remind you that authors deliberately use different types of structures to connect the ideas, events, and concepts in their texts. Each author makes the choices that are best for his/her purpose. Paying attention to what structures they have chosen to use can help readers to figure out the author’s purpose for writing the text.” To begin this work, you might put up two different sections of text and let students think about what the author wanted the reader to know in each section and how the structure chosen helped to make the purpose clear.  
| Author Script: “You say that...”, “What you really mean is...”, “You forgot to mention that...”, “But that’s not the whole truth...”  
| Determine main idea and key details  
| Readers can be on the lookout for a “pop-out sentence” as they read.  
| Readers read, always pushing themselves to think about how new information fits with what the text has taught them so far. They read, pausing to ask themselves  
| “What is the big thing this part teaches me? How does this fit with what’s been said so far?”  
| · Readers sometimes identify key details first. They pay attention to what important details they are learning and then ask, “What the big idea these details are trying to show or support?” To help them do this work, readers might mentally or physically cut up an article and study the different parts to ask themselves what those parts add up to show (____ + ____ + ____ = ?)  
| · How would you summarize this (paragraph, section, part) of the text?  
| Point out the details in the pictures or diagrams that highlight what they’re saying.  
| · Link previous learning to the new information that they just encountered by flipping back and forth to show pictures that build off of one another and by explaining how those pictures go together.  
| · Add gestures to their explanations and use their voices to emphasize what’s important.  
| · Act out what they learned and invite their partner to join in. For example, if one partner is explaining to his partner that owls don’t flap their wings like most birds, but rather they glide, he could have his partner put out his arms and flap them like wings. Then, he could instruct his partner to sway his body and keep his arms out and still to illustrate the difference between gliding and flapping.  
| Common Core to see more of the kinds of questions students should be able to answer about inferences by the end of the year, such as:  
| · Which sentence from the text best supports the inference that______?  
| · What does the author mean when he/she says “_________”?  
| · Which detail from the text best supports the idea that____?  
| · Based on the text, which is most likely true about____?  
| · How would the author most likely feel about...?  

| Differentiation | H: Identify the text structures of at least two of your own texts and infer how the structure best suits the author’s purpose.  
| E: As a research group, identify at least two of the texts the group has read.  
| Differentiation comes in each student determining which strategy works best  
| Higher Level Learners: Focus on one question, “What is this text trying to teach me?”  
| Emerging Learners: Focus on “How is this text trying to teach me_____?”  
| Differentiation comes in each student determining which strategy works best  
| Differentiation comes in each student determining which strategy works best  
| Differentiation comes in each student determining which strategy works best  
| Differentiation comes in each student determining which strategy works best  
| Differentiation comes in each student determining which strategy works best  

| Assessment | Weekly Assessment: On demand  
| Student project progress determined by differentiation strategies and expectations
