FIRST NAME: Yafeng LAST NAME: Jia
GENDER: male
BIRTH DATE: Mar 7, 1982
CELL-PHONE: 541-2559967
EMAIL: yafengj@uoregon.edu

OBJECTIVE

I am currently an exchange architect from China at the University of Oregon. For the past seven years, I have worked at Shanghai Institute of Architectural Design & Research Company (SIADR) in the Xian Dai Design Group. Our company is one of the best and largest architectural design companies in China. I work in the hospital design department of SIADR. Our company, and I, have designed many hospitals, which has allowed me to acquire much experience.

My study at the UO lasts three months, from Jan to Mar 2015. Then I want to collaborate with an American company, which works in hospital design, for about two months. Your company is good at designing this kind of building. It could be a great honor to work at your company. I can introduce the present situation of Chinese hospital construction and also some hospitals completed by myself at SIADR. We can share our experiences, study and learn from each other. This will be beneficial for us.

EDUCATION

2000--2005	architecture in Tongji University in Shanghai	Bachelor Degree
2005--2008	architecture in Tongji University in Shanghai	Master Degree

WORK EXPERIENCE

2008--now Shanghai Institute of Architectural Design and Research (Co, LTD.) of XianDai Design Group
