Course Description
This course is an introduction to the history of archaeology and its methods and theories. As we progress through the term, we will discuss how archaeology developed as a discipline and ways in which archaeological investigation is conducted and applied in the field. Students will become familiar with the modern methods that archaeologists use to locate, preserve, and manage cultural resources, theories that drive archaeological interpretation, and how studies of prehistory have enriched our understanding of humans through space and time.

Student Learning Outcomes
In this course students will:
- evaluate how archaeologists study and interpret the past;
- calculate how past human remains help to understand past cultural behaviors;
- identify the techniques used to analyze the impacts of humans on the environment;
- explain how humans interact with plants and animals (e.g., the development of agriculture);
- outline the consequences of population increase, the rise of social complexity, and what this means for future generations.

Required Software
Revealing Archaeology interactive multimedia courseware for archaeology (Thinking Strings L.L.C. software) ($75.00). Please go to the following website to purchase your serial number <http://shop.thinkingstrings.com/revealing-archaeology-4-4/>.

Optional Book
Renfrew, C. and P. Bahn. 2011 (2nd ed) Archaeology Essentials: Theories, Methods, and Practice (Thames and Hudson). Can be purchased used or new online.

Required Exercise Materials
Atlatl kit. Thunderbird Atlatl ($30) – can be purchased at UO Bookstore (see http://www.thunderbirdatlatl.com) – this should be included as part of your course fee.

Course grades will be based on: Points % Total
Participation = 50 9.1%
7 In-Section Exercises = 140 (20 pts each) 25.5%
8 Software Modules = 160 (20 pts each) 29.0%
Midterm = 100 18.2%
Final Exam = 100 18.2%
Total 550 points 100.0%
**Participation**
It is essential that we provide a learning environment where we can discuss and comment on topics brought up in the course. Your participation in class/sections and in-class events and exercises will be determined by examining the frequency and quality of your participation and performance in the classroom.

**Attendance**
While attendance is not mandatory, I will occasionally pass out roster sheets, which will be used in part to factor in participation points (i.e., the more you attend, the more likely it is you will receive an exceptional grade for participation).

**Salutations**
Like many instructors here at UO, I’m a professor. You can call me “Professor Fitzpatrick”, “Dr. Fitzpatrick”, ‘Professor Fitz”, or “Dr. Fitz”. Any of those will work just fine.

**Exercises**
Throughout the term, we will have several in-class exercises and events. Grades for these will be assessed based on participation and/or submission of written summaries of what was done. All written components will be due the following week in section and must be typed, double-spaced, 12 pt Times New Roman font, with 1” margins.

**Exercise 1:** Visit to the University of Oregon’s Museum of Natural and Cultural History
**Exercise 2:** Measuring and Mapping (work in pairs)
**Exercise 3:** Stratigraphic Interpretation (work in pairs)
**Exercise 4:** Coyote Wash Pueblo (work in pairs)
**Exercise 5:** Atlatls I and II: construction and design
**Exercise 6:** Atlatls III: practice and demonstration
**Exercise 7:** Nazca Lines

**Computer Modules**
*Revealing Archaeology* is organized into 8 modules, which can be thought of as chapters of a book. Each chapter (module) has a variable number of sections with 55 sections in all. Each section presents a set of concepts and contains the text of the chapters. Completion of all the modules is worth 160 points (20 pts each), which is a substantial portion of the total points for the semester in this course. **Note:** there are no late points assigned for the modules – they need to be completed by the due date for which you will receive full credit (20 pts each). If they are not completed, you will receive zero (0) points. The one exception is for Modules 4 and 5, where you can receive half credit (10 points) for completing all but the “Try It” Exercises (i.e., “serration” and “digging it” exercise). You must complete the sections as they are assigned no later than 11:59 PM on the day they are due. After this time-stamp, it will be considered late.

This software means that you need to have access to a computer. The program is Cloud-based and any computer with access to the web will suffice. Note that you must have a reliable internet connection to submit your modules (e.g., some wifi signals may not be robust enough to transfer all of the data at once, so be aware). If you need help getting started with *Revealing Archaeology*, email Thinking Strings at support@thinkingsstrings.com. See *Revealing Archaeology Notes to Students* and please go to the following link and “Watch Videos” before you begin. <http://www.thinkingstrings.com/revealing-archaeology.php>

To submit your completed modules, you need this information:

Policy Issues

Missed Assignments/Quizzes etc…
There will be no makeup of missed exams or assignments except as defined by the official University policy on excused absences, which are anticipated or emergency. Anticipated absences must be cleared with the instructor before missing class. Emergency absences consist of illness, injury, or serious illness or death in the family.

Note that there is no partial credit given for Revealing Archaeology modules, with the exception of two that have more challenging “Try It” exercises (Seriation and Digging exercises). For every day a section assignment or exercise is late, 10% will be deducted from your final score. This includes weekend days. I do not accept emailed assignments – you must provide a hard copy unless specifically stated otherwise by me or your GE.

Cheating and Academic Dishonesty
Assignments in this class are intended to assess your individual knowledge and understanding of the subject material addressed in this class. Therefore, cheating or plagiarism in any form will not be tolerated. The work you present must be your own. Individuals involved in an act of academic dishonesty will be forwarded to the Office of Student Conduct and if circumstances warrant, fail the course. If you have any questions about what constitutes academic integrity, please see the Code of Student Conduct at: uodos.uoregon.edu/StudentConductandCommunityStandards/StudentConductCode/tabid/69/Default.aspx
