

University of Oregon
Department of Anthropology
Minor in FORENSICS

Date: _____

Student name: _____

UO I.D. Number: _____

This minor in Anthropology is intended to complement a major in another discipline. Courses used to complete this minor have been selected by the Anthropology Department. Forensic Anthropology is the study of human remains for medicolegal purposes, relying on facets of human anatomy, skeletal biology, human behavior, taphonomy, and pathology. Forensics applies these sciences to the legal process.

The **24 credits** required for the minor must include:

1. Introduction to Biological Anthropology, Anth 270 (4 credits)

• Term/Year completed: _____

2. Introduction to Forensic Anthropology, Anth 176 (4 credits)

• Term/Year completed: _____

3. Choose any three (3) of the following Upper Division courses: (12 credits in total)

Human Osteology Laboratory, Anth 366
Genomics and Anthropology, Anth 376
Advanced Forensic Anthropology, Anth 473
Human Skeletal Pathology, Anth 474
Taphonomy, Anth 479

• Courses completed: _____

4. Choose any one (1) of these additional courses in Anthropology, which compliment Forensics from a Cultural Anthropology or Archaeology perspective, or choose another course from part 3 above: (4 credits)

Introduction to Medical Anthropology, Anth 162
Principles of Archaeology, Anth 145
Zooarchaeology, Anth 471

• Course completed: _____

___ **** 20 credits graded** (No more than 4 credits taken as P/NP)

___ **** 20 credits above 70%** (No more than 4 credits with a grade of D+, D or D-)

REQUIREMENTS: _____ **Total Credit Hour Requirement: 24**
_____ **Graded Credit Hours Required: 20**
_____ **Upper Division Credits Required: 12**
