**Coronavirus planning, updates**; Patrick Phillips (University Provost), Janet Woodruff-Borden (Executive Vice Provost for Academic Affairs) [Video: ~1:13:52]

- Have an Incident Management Team (IMT) led by Andre Le Duc working around the clock.
- Working to push out more communication more frequently to keep campus updated.
- First and primary driving principle will be **social distancing** in order to continue operating and meet the needs of our students, particularly those on track to graduate soon.

- Have been meeting with IT for weeks for contingency planning and remote options. Investing in campus wide Zoom license and directing more resources to our IT departments to meet the needs of the upcoming changes to university operations. Many additional trainings are being scheduled for faculty and staff on remote technology. Expect to hear more about this shortly.
- Allocation of additional resources to hire more staff to clean more frequently, including sanitizing door handles, light switches and other items that are touched routinely.
- Still working on finding solutions for those courses that cannot be delivered remotely, such as lab classes. Updates to be provided.
- Acknowledgment of the tremendous impact for every single faculty, staff, OA and student on this campus and the reality of needing to remain flexible and nimble as priorities shift from moment to moment.
- Plan at the present time is for first three weeks of spring term courses to be delivered remotely. The university remains open and all normal operations are proceeding. Dorms are open and are providing food service.
- All gatherings of more than 50 people are being cancelled. There will be some waivers granted on a case-by-case basis.
