

NANOMATERIAL CHARACTERIZATION WORKSHOP

Complementary and Corroborative Multi-technique
Approaches to Elucidate Nanostructure

OCTOBER 13-14, 2016

LOKEY LABORATORIES

UNIVERSITY OF OREGON

- Technique demonstrations
- Hands-on activities
- Poster session
- Network with other nanomaterial scientists

Learn **multi-technique strategies** to address nanomaterial characterization challenges including:

- Elemental composition
- Morphology
- Particle size
- Surface chemistry

And more!

Registration fee (includes meals):
\$125 (professionals)
\$75 (students)

Register by September 16 at blogs.uoregon.edu/nanochar2016
