FHS Seniors, it is that time of year when applications for graduate programs and some jobs are opening. FHS faculty are very excited for you! One thing to remember is to make sure that you ask your letter writers if they can write a strong letter for you. Faculty may comment on your diligence in class or research labs, your attentiveness during class, your respect for the instructor and classmates, the quality of your work, your communication skills, etc.

You do not want to submit to an 'average' or 'poor' letter of recommendation to a potential employer or graduate school program.

Multiple career-related resources are available to you on the FHS blog (screenshot included below). For example, please visit the blog to learn...

- how to write a CV/resume and see a sample
- how to request that someone write a letter of recommendation for you and see a sample request letter
- timelines for requesting letters and for applying to graduate schools
- what to send people when you ask them to write a letter of recommendation
- ...and much more

You will also receive content and support around these issues in your FHS Field Study Practica. We are here for you and want you to be successful!!

Thank you,

Dr. Chronister, FHS Program Director
