

CAPS Lab Coding Research Assistant

The Coaching Alternative Parenting Strategies (CAPS) Lab is looking for Research Assistants to work as video coders for an ongoing research project. Coders would be invited to begin working in the lab Summer or Fall 2019.

Research in the CAPS Lab focuses on how stress affects families and how parenting programs and other community services support children & parents. Our lab is dedicated to translational research with direct implications for policy and practice that impact high-risk families.

As a Research Assistant in the CAPS Lab you will:

- Learn video coding techniques for parent-child interaction
- Learn about the impact of various risk factors on parenting and child development
- Gain experience with clinical intervention research
- Have the option to earn research credit for your work

We are looking for students who can:

- Commit to 3+ terms in the CAPS Lab
- Commit to 3-6 hours of work per week (1-2 research credits)
 - Additional opportunities may be available depending on your interests and availability
- Demonstrate exceptional organizational skills, communication and dependability

To apply for this position, please a tentative summer schedule, your resume, and a brief description of why you'd like to join the CAPS lab coding team to Carrie Scholtes (carries@uoregon.edu). Carrie is a graduate student in the CAPS Lab who will be working closely with the video-coding team throughout the training process.
