The (SNAP) Lab is Hiring!
*Earn $$ or research credits to join our team of video-coders this summer!*

Research in the SNAP Lab focuses on the effects of early adversity, developing and testing preventative interventions to improve outcomes for high-risk families. Our lab is dedicated to translational research with direct implications for policy and practices that impact high-risk families.

As a Research Assistant in the SNAP Lab you will:
- Learn video coding techniques for parent-child interaction
- Learn about early brain development, toxic stress and parenting
- Gain experience with clinical intervention research
- Have the option to earn $$$ or research credits for your work over the summer

We are looking for students who can:
- Commit to at least 10 weeks of work over the summer. (Commitment for 2+ terms during the 2019-2020 Academic Year is preferred).
- Commit to 6+ hours of work per week
- Demonstrate exceptional organizational skills, communication and dependability

*We are especially interested in recruiting team members who are fluent in Spanish. We have additional funding to support our bilingual RAs – please specify your language skills as a part of your application!*

To apply for this position, please submit your resume and a brief cover letter through our website: https://snaplab.uoregon.edu/join/.
