PROCEDURES FOR CHANGING MAJORS WITHIN THE DEPARTMENT OF ARCHITECTURE

Students are required to explore and experience the major they were originally admitted under before they are allowed to request to change majors between B.IARC and B.ARCH. Students must meet with a College of Design advisor to discuss career and educational goals driving this change.

Students may submit a request for a major change after meeting with a College of Design advisor and having completed (or in the process of completing) the following courses and studios. Students must be in good academic standing and have completed all studios with P grades (cannot have marginal pass in any studio).

To request a major change complete the “Add/Drop Minor/Major Application form” on the SAE student Blog. You must include a description of why you are requesting to change majors in the “Why would you like to add/drop this program?” field.

FROM Architecture TO Interior Architecture

| Studios: | ARCH 283, ARCH 284, ARCH 383 and IARC 484 winter term |
| Graduate |  |
| Subject courses: | ARCH 611, Introduction to Graduate Arch Media  
ARCH 610, Intro to Graduate Arch Computing  
ARCH 550, Spatial Composition  
ARCH 570, Building Construction  
ARH (one course) |
| Studios: | ARCH 680, ARCH 681, (IARC 584-see*NOTE below) |

* NOTE: Track 1 students requesting the major change must first complete ARCH 680, 681. The winter term studio placement in ‘change of major studio’ is dependent on availability. If the space is limited, a lottery will be held. Placement in the declared major studio is guaranteed for the spring term.
