Thank you for your interest in applying for the Global Health Minor within the Department of International Studies.

About the Global Health Minor

“Global Health is an area for study, research, and practice that places a priority on improving health and achieving equity in health for all people worldwide.” – The Lancet 2009

This minor is designed for students interested in gaining focused curricular concentration and experience in global public health. Courses expose students to critical social and historical perspectives in global health, as well as to human physiological and developmental processes in comparative, cross-cultural, and international perspectives. A required intensive supervised field internship or research project will provide students with tangible experience in global health research and practice.

Application Information

Students interested in the minor must complete all of the required materials and submit an application by Monday of Week 4 of Spring Term, no later than 4:00 pm PST. A cumulative UO GPA of 3.0 or above is required for acceptance into the Global Health minor program.

Incomplete applications will not be considered. Please ensure that you have included all of the following with your application:

- A unofficial copy of your UO transcript (unofficial, printed from DuckWeb), showing that you have successfully completed at least two terms at the UO, in addition to any transfer statements with grade reports.
- Completed GH Minor Program Planner. Must include courses already completed as well as those you plan to take, with the term and year completed or planned. The aim of this planner is for you to map out your anticipated trajectory through the minor; the planner is not a binding contract. A personal statement. This should be typed, single-spaced, and under 400 words in length. In your essay, please detail: 1) your interest in the GH Minor; 2) include any relevant past coursework, experience, general plan or idea for your GH field placement/internship, and future aspirations within the Global Health field. A copy of your current résumé or curriculum vitae. Please only include relevant educational, professional, leadership, research and volunteer experience.

PRO TIP: Remember you are not a GH student yet, and your CV should reflect your current status as a student at the UO

Please do NOT include any additional materials that have not been requested. The GH Minor Admissions Committee will review your completed application and you will be notified of the committee’s decision by email to your UO email account.

Global Health Minor Requirements

24 Credits are required for the minor, with a minimum of 12 upper division credits. All courses taken for the minor must be taken for a letter grade, with the exception of the 4XX internship course. Courses applying to the minor must be passed with a C- or above. Global Health and Development, INTL 340 is required, and must be taken for a grade. One 4XX level field experience/internship course is required (4 credits, taken P/NP). Two courses from the Social Sciences and Humanities (8 credits) and two courses from the Natural Sciences (8 credits) must be taken. A maximum of 12 credits in a single department (including major department) will count towards the GH minor. No more than 3 courses with the same subject heading. 20 credits for the minor must be taken in residence at UO. Substitutions must be approved by the Global Health Minor Program Director by written petition.**
**Any student wishing to count a course not listed on the approved elective list towards the Global Health minor should email kcowell@uoregon.edu a brief (one paragraph) explanation of justification, and include a copy of the course syllabus, to be submitted to the Global Health Program Director and the Undergraduate Program Coordinator for review.**

If you have any questions regarding the minor or application please contact the Undergraduate Advisors at ispuga@uoregon.edu, the Undergraduate Coordinator, Kenlei Cowell at kcowell@uoregon.edu or the Global Health Program Director, Professor Jeffrey Measelle at measelle@uoregon.edu.
