

# School of Architecture and Allied Arts

## Computer Plan to Purchase Form

DATE: May 8, 2013

TO: Students majoring in Architecture, Landscape Architecture, Digital Arts and Product Design

SUBJECT: Financial Assistance for Required Computer Purchase

The departments of Architecture and Landscape Architecture along with the Digital Arts and Product Design programs require all students to have their own computers. You should expect to spend between \$2000 and \$2500 on a complete computer system. Software costs will vary depending on the program.

For details on the recommended computer configurations, please refer to the A&AA Technology Services website at <http://aaatech.uoregon.edu/purchasing/student>.

Because owning a computer is a requirement for students in the departments and programs listed, the Office of Student Financial Aid may consider these costs in calculating your eligibility for additional loan assistance. If you are interested in having your aid eligibility reevaluated to include these costs, please fill out this form and **attach one of the following: a receipt, purchase order, or on-line quote to demonstrate your intent to purchase** computer hardware and software.

Return this form and attachments to:

Office of Student Financial Aid 1278  
University of Oregon 260 Oregon Hall  
Eugene, OR 97403-1278

I request that the Office of Student Financial Aid consider the costs outlined above in reevaluating my eligibility for financial assistance. I understand that, should my plans change and I do not spend as much as I currently anticipate, I must report that to the Office of Student Financial Aid.
