Reviewing Submitted Papers

How do I review papers that I have submitted to VeriCite?

Once the paper has been submitted, you will be presented with a confirmation screen and the ability to **View Report**. VeriCite will generate the report and load the VeriCite review screen.

How do I search and sort through VeriCite report?

VeriCite provides a **Highlight Legend** that shows a range of **Low to High Matches**. This legend corresponds to the highlighted text from your paper. By clicking on a color within the legend, VeriCite will automatically move you through the documents showing the color priority that you've selected.

What are **Top Matches** and how do I review them in the VeriCite report?

Within the VeriCite report, select the **Top Matches** tab. A list of links will display to external websites and to other papers found within the UO's VeriCite database. As a user scrolls through the document, the links under **Top Matches** will display the source where VeriCite has detected a match.
