

Linking the Present to the Past

You must complete the lyrical interpretation to receive the 5 point credit towards the unit test. Listen to the song and think of the one of the following historical figures or events:

The battle of Thermopylae (Spartans vs. Persia) - Alexander the Great - Punic Wars (Rome vs. Carthage)

Next to each line of the lyrics, explain the correlation/relationship between the combatants on both sides of the event. If the line repeats, you are not required to repeat yourself unless you have another idea to discuss using the repeated lyrics. This is due on the day of the unit test, no exceptions!

Immortalized by Disturbed

This is wartime, this is our time, we won't be denied

Feed the fire that is raging inside

This is go time, this is showtime, we will fight 'til their wills are broken

This is game time, an insane time, let the madness fly

Show them strength that just can't be defied

Find the power to devour, let the beast inside now be woken

In this world only the strong will survive

Hear the roar and you will know you're alive

Feel the energy build in your soul 'cause it's time

(Chorus)

Oh, in the calm before the storm

Another legend will be born

Another battle will be won

We will rise

Oh, so heed the call of confrontation

Today we feed on domination

Secure a legacy that will never die, be immortalized

Raw emotion, pure devotion, they will testify

And our memory will endure for all time

Never hiding, no dividing, let them witness us move as one now

Show no mercy, let the world see we're invincible

Show them nothing is beyond our control

Take it higher, our desire will determine what we've become now

Are you ready for the test of your life?

See the fear bleeding right through their eyes

Feel the energy build in your soul 'cause it's time

(Chorus repeated)

Feel it, take no prisoners now

Take it, there it is standing in front of us

Hear it, our deliverance now

Own it, give them all an image of us that will last for all time

(Chorus repeated)
