

Type of Meeting: Strategy Team session		Date: 6 Mar	
Attendees:	LuM, DC, TJ, BZ, CG, SB Apologies: PU	Chair: TJ	
	Item:	Intention:	Description / By Whom / When
1	Survey feedback and discussion	Assume positive intentions	Results discussed and plan for follow up put in place. (See summary table of positives and questions that arose as we reviewed the data).
Positives		Questions	
There are some people who are really empowered and act with agency because of Strategy.		Do we need clarify strategy and purpose of strategy with some faculty?	
The survey provided useful data moving forward		Strategy team vs. Strategy – is this clear?	
People who responded have had good interactions with Strategy Team = good conversations, meetings, water-cooler chats.		Is strategy low on everyone's priority list? How might we gather the voices of all faculty with regard to strategy?	
Names coming up (of some Strategy Team members) means that we are dividing and working alongside people to move strategy forward.		Is there an understanding between projects and goals?	
New teachers were quick to respond.		Are we getting out there enough as team members?	
Lots of informal interactions noted.		What can we do differently to help people understand the value of strategy?	
People pitched specific ideas and suggestions for moving forward (Strategy Team to follow up with people who shared their name).
