

My name is Nia Dye and I am currently a junior International Studies major from Bowling Green, Kentucky. I am a Bonner Scholar, junior representative on SGA, and a member of the track and field team. Although I have been a member of SGA for only 1 year, I am eager and passionate about the development and success of Centre's student body.

As president I will:

- Work to create a more cohesive learning environment for students
 - Promote understanding and connection with our peers through more campus involvement

- Encourage greater representation from SGA members in clubs and organization
 - SGA members can and should be in direct interaction with the clubs we are representing

- Work to bridge the gap between Danville and Centre
 - Bridging our campus out to the Danville community will be beneficial for an even more cohesive connection within our campus

- Be a supportive and encouraging peer to all
