New BME Course Offering this Fall

BME495: MRI modeling of brain physiology

PhD, MS, junior/senior UG students with MRI experience are welcome

Students without MRI experience should contact Prof. Bright to discuss options: molly.bright@northwestern.edu

MW 4-5:20 PM
Evanston Campus

How can we use MRI to measure brain activity, blood flow, and tissue microstructure?

Learn how we process, model, and ultimately interpret brain imaging data
